117th Annual Christmas Bird CountCitizen Science Opportunity!

December 14th 2016 – January 5th, 2017
Across the Hawaiian Islands

Spend the day with other birders and volunteers at your local bird count. The results are used as a guide to create conservation strategies to protect the birds and their habitat, and to understand the long-term health of bird populations. Contact your local bird count coordinator to find out how you can join in the fun and make a difference! Learn more at http://www.audubon.org/conservation/science/christmas-bird-count.
