E.K.G. Life Science Solutions

"At The Heartbeat of Pharma and Med Device Development"

EKG Life Science Solutions, LLC (EKG Labs) is a contract **analytical laboratory** and **solution provider** to the regulated Life Science communities of Pharmaceutical and Medical Device Development.

We utilize our strengths in regulatory compliance, scientific excellence and novel thinking to offer Scientific and Regulatory Consultation, FDA Response/Remediation, Program Management and Execution.

Analytical Services

- Extractable and Leachable
- Method Development/Optimization
- Impurities Identification
- Characterization
- Compatibility Studies
- Customized Analytical Programs

We work with you to design your program to meet your regulatory and scientific requirements in the most cost-effective, efficient manner possible so that you can get to your next milestone faster. Once we understand your needs, we will provide you with a comprehensive proposal that outlines all anticipated costs and timelines so expectations are clearly set up front.

Consultation Services

- FDA Response/Remediation
- Project Management
- Audit Services
- Training
- Protocol Preparation
- Submission Review

EKG Life Science Solutions can assist with regulatory and scientific design support. Our consulting, training and audit services allow you to add a technical or regulatory expert to your team without the cost of hiring someone full-time. Whether you need a review of documentation, a data packet, or a full on-site audit, we are here to help.

Mission

EKG Life Science Solutions is dedicated to providing innovative analytical solutions to our partners in the pharmaceutical and medical device development communities through trusted relationships built on quality, knowledge and integrity.
