Faizal's expanded his passion in acting since in the promising year of 2008. Faizal has appeared in various Suria TV shows and Channel 5 TV shows. He studied and graduated in Business & Management at BMC International College Singapore before realizing his course wasn't really his bag.

He's not a celebrity nor an artiste. He's just someone like you with passion, obsession and interest. He's a dreamer. He's a quiet and calm type; he is people-oriented and very observant. And he's friendly too but not with people that are overbearing but he would whistle it along. He's an actor, remember?

Faizal acting began with a role in a love story "Romzi & Juleha". A love romance theatre show by Teater Kami Production and directed by well-known Singapore theatre director Atin Amat. Soon after, he landed his first television show on Suria Channel.

While contemplating further career work, he decided to pursue a more solid and challenging career and decided to become an actor. Never having formally studied theatre or acting but because of his passion and patience, He decided to give things a go

Till now, Faizal will be looking to put his knowledge and experience as he embarks on his acting journey. He's constantly look forward for more opportunity in Malaysia and Singapore to expand his acting career. Hence, he requires opportunities. Some rare, refreshing chances to open him up to different ideas and ideals. It will be fraudulent for him to act as though he do not know how small Singapore's market is to actually make acting a career, but he'll be more than willing to try.

He's ready to show the world what he has got, and ready to face some constructive criticism. Ready to expose his shares of talent, to let mounts of viewers know that acting is not just about entertainment. It's about magic.
