

Solar LED Lighting Tower

HVL600S

**Mobile LED lighting tower with silent
automatic solar-charging power system.**

www.bentleyimports.com.au

Charged by the sun during the day, powered by batteries at night – no diesel, no noise

Features:

- No expensive diesel fuel;
- No time-consuming refueling or maintenance;
- No noise;
- No fumes;
- No carbon emissions
- No on-going running cost.
- 8.5m hydraulically activated mast
- High return on investment

LED Lights:

- Energy efficient;
- High Lumen output;
- Life span can be as long as 50,000.00 hours

Durability:

- Solar panel has 25 years life;
- LED can last as long as 50,000.00 hours;
- Batteries are sealed, no maintenance, deep-cycle AGM batteries and typically can last 4-6 years.

Brief Specifications

Lamps	4 lights fixtures
Luminosity	15,000 lumens per fixture;60,000 total lumens
Power draw	Approx150 watts per light fixture
Mast height	8.5m when fully extended; lights operate at any height
Batteries	480 Ah, wired as a 24-volt system
Solar	1000 watts
Charger	50 A
Travel dimensions	3480mm*2150mm*1820mm(L*W*H)
Working dimensions	3480mm*4800mm*8500mm(L*W*H)
Dry weight	890Kg

Applications:

Special events
Neighborhoods
Rural & hard-to-reach areas
Emergency response
Mining sites
Accident investigation
Utility repairs
Construction & work sites
Temporary security
Military applications
Wherever high-voltage power is not an option
