

WALLWORKS NEW YORK

OPEN GALLERY

Group exhibition

BRONX, NEW YORK (December 13, 2014) – WALLWORKS NEW YORK is proud to present OPEN GALLERY, a group exhibition of emerging and local artists that will be on view throughout the holidays at the gallery.

Keeping with the mission statement of the gallery, this group show is an eclectic and salon-style mix of artists who currently live and/or work in the Bronx, as well as emerging artists from around New York and the country—celebrating the creative energy of the Bronx and the new and exciting artistic voices arising in the art world today.

With a mix of paintings, photography, sculpture, and collages, the artists on view in OPEN GALLERY were given the opportunity to show work that they are passionate about, and for some artists, the first chance to show in a gallery. With artists who are more established, to youngsters from the neighborhood looking for a way to have their artistic voice heard, the exhibition is an example of the talents of a section of New York City most people don't pay the attention it deserves.
