Bringing people and ideas together to create Light.

## Press Release

Tuesday, December 10th, 2013 - Tustin CA - Solar Luminance is proud to announce that we have teamed up with Ciralight, maker of the SunTracker, in order to bring designers and architects the worlds best Daylight Tubular Skylight options for their Custom Daylight Light Fixture Designs.

Ciralight Global, Inc. is headquartered in Southern California and manufactures its patented Ciralight SunTracker™, a clean-tech sustainable lighting solution.

Ciralight SunTrackers™ use advanced GPS Suntracking technology and mirrors to illuminate commercial buildings. The result is a FREE source of light during the day, which saves energy, lowers utility bills, and provides a better quality of light. Ciralight SunTrackers™ are better for the Environment, Better for Business, and Better for People.

Ciralight Global, sells its Ciralight SunTrackers™ through an international network of authorized Distributors and Dealers. Now with the worldwide movement toward energy efficiency and a greener planet, Ciralight Global, Inc. is making Ciralight SunTrackers an international commercial industry lighting solution that will allow millions of people enjoy natural, healthier, clean energy efficient lighting.

The pairing of Ciralight's SunTracker™ system and Solar Luminance Custom Daylight Light Fixtures provides commercial and residential designers and architects, a lighting solution that is beautiful, functional, moving, sustainable, and inspire people to consider the earth and it's resources.

Solar Luminance is proud to have teamed up with Ciralight, and is excited to work with commercial and residential interior designers and architects, to create incredible Custom Daylight Light Fixtures.

For more information on creating a Custom Hand-blown Glass Custom Daylight Light Fixture for a project or a project referral, please feel free to contact a Solar Luminance Rep at: [Sales@SolarLuminance.com](mailto:Sales@SolarLuminance.com) or feel free to call (855) 687-6233
