

SibeliusFestival – Golfo del Tigullio 2015 collects many great personalities, among whom: Ferruccio Tammaro (Turin University), the most important Italian author and essayist about Sibelius' poetry; Folke Gräsbeck ("J. Sibelius" Academy Helsinki), pianist and researcher who obtained the highest award from Finnish Government for his work on chamber music production by Sibelius; New Helsinki Quartet, one of the leading European chamber groups formed by the *first parts* of Finnish Broadcast Orchestra; and again Satu Jalas, famous violinist and nephew of Jean Sibelius.

This is a way to present besides great performers **young and talented Italian musicians** too, able to express themselves in a cultural exchange with more experienced artists.

An highlight will be the **11th October's concert** with - as special guest - the chamber orchestra G. B. Polledro presenting very emotional pages by Sibelius, Elgar, Hamerik.
