

Eco Fencing

Banish the need to paint your fence forever! Eco Fencing is made from 95% recycled PVC-U and is a maintenance free fencing system that can be used all together or mixed with timber fencing panels or existing concrete posts. The fencing posts are available in lengths from 1.5m to 3.0m and the Eco Fencing gravel board is available in 6' and 8' lengths. Simply slot one plastic gravel board on top of another to create a fully plastic fence panel and completely maintenance free plastic fencing! (6 gravel boards make a 6 ft high fence panel)
