

March 17, 2015

The Honorable Jerry Moran
U.S. Senate
361A Russell Senate Office Building
Washington, DC 20510

Dear Senator Moran:

On behalf of the 42 undersigned organizations representing the Nursing Community, we thank you for introducing the Protecting Access to Rural Therapy Services (PARTS) Act (S. 257). Collectively, the Nursing Community represents over one million Registered Nurses, Advanced Practice Registered Nurses (APRNs), nurse executives, nursing students, nursing faculty, and nurse researchers. Our organizations are committed to improving the health and health care of our nation by collaborating to support advancements in nursing education and practice. The Nursing Community supports this legislation, which would allow certain outpatient therapeutic and diagnostic services to be provided under general supervision, rather than direct supervision, of a physician or certain non-physician practitioner.

The PARTS Act includes in its definition of “non-physician practitioner” the four APRN roles (nurse practitioner, certified registered nurse anesthetist, certified nurse-midwife, and clinical nurse specialist). The bill supports these clinicians to practice to the full extent of their education and training as defined by state law, as they provide high-quality care to our nation’s rural communities. Moreover, by eliminating the Center for Medicare & Medicaid Services current requirement that non-physician providers must be under direct supervision at the time services are furnished, S. 257 helps address healthcare provider shortages and increase the delivery of critical healthcare services to patients in rural settings.

The Nursing Community commends this legislation’s effort to support APRN practice and ensure some of our nation’s most vulnerable patients receive the services they need in a timely manner. If our organizations can be of any assistance, please contact convener of the Nursing Community Dr. Suzanne Miyamoto, at Smiyamoto@aacn.nche.edu or 202-463-6930, ext. 247.

Sincerely,
