Soren Holm Incorporated and/or it's agents are not responsible for any problems or damages resulting from the use of information contained in this reference table. Soren Holm Incorporated makes no warranty of any kind with regard to information contained herein. Information contained in this table is subject to change without notice. Although information and specifications contained herein were as accurate as possible at time of publishing, Soren Holm Incorporated is not liable for any costs due to errors or omissions.

POST LEGS diameters are largely asthetic considerations. Tables that are moved frequently or are on casters should have a frame and leg construction.

DRUM BASES WT = weighted. Plywood disk should be set into the bottom of the drum and bags of sand added to achieve required stability.

TRUMPET BASES WT = weight required. Flat plate welded into bottom of base at the factory.

X = not applicable or suitable. May require design layout to utilize.

4 col = four column base
