Your unit will be treated for the control of **ROACHES** on:

DAY: \_\_\_\_\_ DATE: \_\_\_\_\_ TIME: \_\_\_\_\_

Please make sure key arrangements have been made and the following preparations have been completed prior to our arrival:

1. Remove everything from kitchen cabinets. Cabinets will not be sprayed if they have not been emptied. **If cleaning is to be done, cabinets will need to be cleaned prior to spraying. Do NOT wash or clean cabinets after treatment.**
2. Remove everything from kitchen counters & under kitchen sink.
3. Empty medicine cabinets and cabinets under bathroom sink.
4. Remove everything from any/all closets.
5. Make baseboards accessible in all rooms and closets.
6. Remove all drawers from all dressers & place in center of room
7. Vacate house/unit for 4 hours
8. Birds **MUST** be removed for 24 hours.
9. Aquariums should be covered and the filter and air pump must be unhooked until the unit is well ventilated.

Please note that it is normal to continue to see some roach activity for a period of 10-14 days after treatment.

I understand all the above information:

Signed: \_\_\_\_\_ Date: \_\_\_\_\_
