SCROLL PAPER® SP167

SP167 is a white paper coated by a white Polymer film reinforced by a polyester film for scrolling billboards applications.

Design features:

- Width: 250 cm - 295 cm - 315 cm
- Length: from 150 to 3000 meters
- Weight: 167g/m²
- Paper thickness: 115g
- Polyester : 52g
- Total paper thickness: 142μ

Advantages:

- Tear-proof: Reduction of the servicing costs due to the elimination of operational billboard stops caused by the damaged of the posters.
- Consequently, it permits the possibility of combining short campaigns with semi-permanent campaign lasting up to six months.
- Suitable for all backlighting applications
- Superior results with offset and digital printing
- Good sheet formation for homogeneous see-through effect
- Excellent transparency allows light to go through the paper at the right level
- Excellent moisture-resistance
