

How do I schedule a visit to the Department of Mechanical Engineering?

You are welcome to visit the college and speak with the graduate advisor, Sharon Anderson anytime during her regular office hours (8-12 and 1-4, M-F). You do not need an appointment but it is helpful if you email ahead, sharon.e.anderson@colorado.edu. [Click here](#) for maps and driving directions. It is recommended that visitors park in metered lots designated for public parking, which are located around campus. Most meters cost \$1.25/hour. Faculty also welcome visitors, but appointments should be made directly with them via email.
