

# THANK YOU FOR WEARING THE PDR BUTTON

**W**e invite you now to do a simple experiment. Ask random ordinary people you encounter during the course of your day—at work or school or while doing errands—“What do you think of my button? Good idea or bad idea?” (You have to ask people because most people just ignore buttons otherwise.)

It may surprise you, but most people will say it's a good idea, or even a great idea. See for yourself!

But most people will also say it is impossible; it can never happen.

If you ask people to tell you why they think it is impossible, they will invariably say it is because **TOO FEW PEOPLE WANT IT TO HAPPEN**, or something equivalent (such as “the rich are too powerful.”)

Here's the problem: Most people in fact want it to happen, but don't do anything to make it happen because they are convinced hardly anybody else wants it to happen, so what's the point of even trying.

This is exactly what the billionaire class wants people to think. This is why the rich who own and control the mass AND alternative media cancel all expressions of support for the button's message. This way people will be politically paralyzed by hopelessness from feeling alone in wanting to remove the rich from power, and the rich will remain in power.

We produced these buttons to make it easy for people to discover that they are NOT alone in wanting to remove the rich from power to have real not fake democracy with no rich and no poor. We hope you'll carry extra buttons with you and give them to people who want to wear them so they too can discover the truth about what most people REALLY want.

Please visit [www.PDRBoston.org](http://www.PDRBoston.org) to see how to obtain buttons and to read about why it really is possible to remove the rich from power and have a genuinely democratic society with no rich and no poor.

It won't be easy, and it will take more than voting since the billionaires with the real power were not elected and thus cannot be un-elected. But when millions of people KNOW that millions want to do it, then the resulting confidence will turn hopelessness into hopefulness, and it will indeed be possible—for the vast majority that honors the Golden Rule to prevail over the small minority that attacks it with inequality and domination.
