

# TORNADO SAFETY

**Tornado Watch** - Tornadoes are possible in the area you live in. Listen to the radio or watch the television for updates. Be prepared to move to safety.

**Tornado Warning** - A tornado has either been spotted by Doppler radar or one is on the ground. You should find shelter immediately!

## During a Tornado -

- Go to a basement
- If there is no basement, go to a room in the center of the building, on the lowest floor, with no windows. (A bathroom or closet if possible.)
- Get under the sturdiest piece of furniture if you can.
- If you are in a mobile home, GET OUT! (There is little protection there.)
- Do NOT try to outrun a tornado in a car. It is safer to get out of it and leave it to seek shelter.
- If you are outside, go to a low lying area, like a ditch, and lie down flat.
- Do NOT go near fallen power lines or damaged areas from the tornado.
