I hope everyone is having a good summer so far. The BCC tour has been going great. The shows have been a lot of fun, and the crowds have been fantastic

We have filmed three German shows that will be a concert DVD/ CD that will be released in October.

The artwork was done by Nello Dell'Omo who I think did a great job.

The final list of musicians are Simon Phillips on Co-production, mixing and all drums, Steve Lukather, Joe Bonamassa, Steve Stevens, Tony Franklin, Doug Aldrich, Tony MacAlpine and Jimmy Johnson. I feel that this is my most focused record in terms of compositional style, and has my most diverse keyboard playing. I will release teaser audio samples when i get home from the BCC tour in August.

Hope to see you on tour soon!

Cheers,

Derek
