The following paragraph summarizes the essential ideas found in the Education Leadership article "Art Becomes the 4th R" (2000). The entire article can be read in English, Spanish, French and a number of other languages at www.jasonohler.com/fourthr.

Teknolohiya at kalawakan sa mundo ng Web (internet) ay nagdala ng malaking pagbabago sa edukasyon simula ng ma imbento ang paglathala sa mga pahayagan. Dahilan sa kalawakan sa internet ang mga mag-aaral ay kinakailangang mag-isip at makipagsosyuhan o sulatan bilang isang taga-pagdisenyo at bilang alagad ng sining. Sapagkat sa panahon ngayon ang mga mag-aaral ay nag de-desinyo na ng mga websites para sa kanilang mga araling proyekto na bumuo ng video, graphics at animation para sa kanilang mga takdang aralin sa pa-aralan, ang sining ay napakalaking bahagi para sa ika u-unlad ng akademiya. At dahil sa mundo ng negosyo at kaunlaran ng pamayanan ay naging angkin na ng kabu u-ang pahayagan bilang pangunahing anyo ng kumunikasyon lalo na bilang pandaigdig na wika. Ang sining ay dapat tanggapin bilang pangunahing literatura kong atin mang ipaghahanda ang mga mag-aaral sa mundo ng tunay na pag gawa, komunidad at sariling angking tagumpay. Ang sining ay naging bahagi na pang apat na "R" at gaya ito ka importante sa tatlong "R's" (reading (pagbabasa), 'riting (pagsusulat) at 'rithmetic (pagbibilang). Dapat ating tugunan at gawin ang sining bilang pangunahing letiratura sa ating mga pamahalaan.
