

Thermoregulated Storage

An integrated thermometer, small and extremely accurate. The inner temperature is correctly displayed on the top side of the cabinet's door.

We provide a simple designed semen preservation fridge with high storage efficiency : up to 100% of its space can be occupied, almost no wasted areas.

A triple integrated fan to prevent the storage from overheating. It is also soundless and light weighted.

We provide a wide range of equipment along with leading breeding solutions
