

## Artificial Insemination Catheters

### Post cervical Catheters

*Use less, produce more*

*Solid lock on semen bottles, making AI procedure more comfortable and easier. This latest AI technology also allows automatique insemination.*

*Round headed tip, ensuring smooth introduction without damage and effective control of fluid flow*

*We use high quality EVA medical foam. The wellbeing of pigs is a priority.*

- Improved performance : perfect lock into the cervix, tight seal assures reduced backflow of semen.
- Reliable-foam tip permanently fixed : foam tip is molded on to assure the highest success for the breeder
- Foam tip designed to prevent trauma to the genital track
- Save up to 50% semen per dose
- Fertility rate increased by 13,5%
- Our catheters are manufactured under strict sanitary protocoles
- Odor less, no shrinking, no lint, no allergen and easy to handle

We provide a wide range of equipment along with leading breeding solutions
