WHY ORIGAUDIO

ASI: 75254
SAGE: 69075
UPIC: ORIG44

OrigAudio is one of the fastest growing suppliers in the industry, a title we achieved by establishing several game changing standards. For the majority of our products there are no minimums, no set up fees, no art fees, full color digital imprinting, free virtuals, retail packaging and a very fast production time.

OrigAudio prides itself on offering the most unique and interesting products never-before-seen by the industry. By utilizing our years of experience and invaluable client feedback, we strive to develop the products that clients want, packaged in the most creative ways. Our products are made of the highest quality materials that go through rigorous safety testing, which is not the case for most promo product suppliers.

What really sets OrigAudio apart from other suppliers is our amazing customer service – we go above and beyond for our clients.

CERTIFICATIONS

When it comes to consumer electronics, safety should be one of your biggest concerns. All of our products are compliant with all the necessary testing and certification to have them sold on retail shelves all across the world. Some of our certification includes: FCC, CE, RoHS, UL, Prop 65, UN38.3, BQB and Apple MFI licenses, and more.

In our power banks, we ONLY use brand new, “A” grade batteries with short circuit auto-protection to ensure they are safe for you and your clients to use on a daily basis. We NEVER use second hand batteries, as many other suppliers do, because they result in deceiving capacity measurements and even physical harm.

MATERIALS

Our products are only made with the safest and most reliable materials. Many promotional product companies sell power banks that come housed in an aluminum exterior, which as you may have heard from the reports filed by ASI, have caused major overheating issues and led to numerous product recalls. We always encase our power banks in a plastic exterior shell, which acts as a cooling mechanism for the battery and ensures safe use at all times.

WARRANTY

Unlike most promotional product suppliers who don't offer a warranty, we ALWAYS offer one. We offer the same warranty to our promotional customers as we do to our retail customers, even if it has a logo printed on it.Our warranties range from three months to a year, depending on which product you're purchasing. It's important for us to stand behind the products we make to ensure you and your clients are satisfied with the quality.

QUALITY CONTROL

Before one of our products goes out the door, it must pass an extensive quality control checklist. In all of our factories, we utilize a dedicated 3rd party QA and QC team to ensure a product is up to our high standards before it comes to us in the USA. Once we print and complete your order in California, it has to go through a color and registration check. Then each piece is hand examined by our staff to ensure it looks exactly like the approved artwork.

“Always remember, you get what you pay for.”

COMPLETELY CUSTOM

Nothing drives home the branding message more in a gift like going completely custom! We can develop and build custom molded speakers, earbuds, or any other electronics your client desires. Having a hard time finding the perfect item? Allow us to make your life easier by sourcing any item for you through our strong overseas factory connections.

Perks

Our clients are used to our fast turn times and no minimums policy, and now we've taken our print-on-demand model and made it available for your clients, too! With a virtual inventory system, they can easily add OrigAudio products to their own online store with a limitless assortment of products and designs.

The best part is that your clients can now create a virtual store for their employees, fans, or customers, without having to hold any stock themselves! Our products will be produced and drop shipped directly from our warehouse to the customer's door –simple as that.

We currently use this model on a global scale, with our products featured on the websites of Nordstrom, Zazzle, and others. With a process as user-friendly as ours, the decision to create or expand your online store just got a lot easier.
