The Webster Groves School District hired Landmark in July 2000 as the Program Manager for their \$9.5 million bond issue for district-wide improvements and renovations. The projects managed by Landmark included:

- renovations to the High School cafeteria
- renovations to the Middle School Industrial Technology area, and
- multiple miscellaneous small projects including asbestos removal, roof and façade work.

The projects were schedule-driven renovations that require effective management and teamwork.

Landmark's effective management allowed the schedule-driven project to complete on time.

As Program Managers
Landmark
provides the
leadership to
achieve
schedule goals.
