school district
st. charles,
missouri**

As the Program Manager for the Francis Howell School District, Landmark has managed over \$160 million worth of construction.

Landmark's role involved managing the entire building program. Each and every project in the 10 year program was completed on schedule and under budget. We have generated savings of more than \$8 million, which allowed the school district to accelerate some projects and increase the scope of its overall program.

In the 10 years we served as Francis Howell's Program Manager, we completed multiple projects including:

- 8 renovations
- 11 additions
- 1 new High School
- 3 new Middle Schools
- 5 new Elementary Schools
- 3 new early childhood centers
- 1 new administration center
- 1 new "Vacation Station"
- 3 football field/track complexes
- 3 softball/baseball fields
- 1 Performing Arts Center
- 4 libraries
- 5 gymnasiums

**Each and every project in the
10 year program
was completed
on schedule
and
under budget.**
