

**collinsville community
unit school district
collinsville, illinois**

Landmark is the Program Manager for the Collinsville School District. The \$51 million program includes a new 7/8 center, additions to the High School and two elementary schools and district-wide renovations.

Landmark's role in the 5-year plan includes complete Program Management of the projects from Planning and Design through move-in.

Currently, the majority of the project is in the planning phase and Landmark is working closely with the School Board in identifying potential new facility locations and verifying budgets while wrapping up the construction renovation portions of the work.

Landmark is also the key contact when corresponding with the Illinois Capital Development board, one of the main funding sources of this program.

Landmark is providing
the leadership to
get this project headed in
right direction
