

PLENARY SESSION SEPTEMBER 10

Michelangelo

*Chairs: Domenico D'Avella (Italy)
Roberto Delfini (Italy)*

- 11:15 am** **Current treatment of petroclival meningiomas - Experiences and changing paradigms over 25 years**
Volker Seifert (Germany)
- 11:30 am** **Update on the EF14 randomized study of TTF therapy in newly-diagnosed GBM**
Zvi Ram (Israel)
- 11:45 am** **The case for clipping anterior circulation aneurysm**
Robert Spetzler (USA)
- 12:00 am** **Meningiomas: Long-term management or cure**
Tiit Mathiesen (Sweden)
- 12:15 am** **Some thoughts about peripheral nerve surgery: Is it important as clipping an aneurysm or resecting a brain tumor?**
Mariano Socolovsky (Argentina)
- 12:30 am** **The Coils history (Video)**
Guido Guglielmi (Italy)

MASTERS' VIDEO SESSION SEPTEMBER 9

Tiziano
1

02:30 pm - 04:00 pm
MASTERS' VIDEO SESSION

Chairs: Roberto Delfini (Italy), Francesco Tomasello (Italy)

Microsurgical dissection technique for challenging lesions
Nobuo Hashimoto (Japan)

Vascular lesions and what they have taught us
Robert Spetzler (USA)

Surgery of CP angle schwannomas
Madjid Samii (Germany)

Microsurgery for Giant Acoustic Neuromas
Basant K. Misra (India)

Microsurgical removal of brainstem cavernous malformations
Helmut Bertalanffy (Germany)

The Value of Intra-Operative Multi-Modality Imaging in Chordoma Resection
Ossama Al-Mefty (USA)

WFNS YOUNG NEUROSURGEONS AWARDEES SESSION SEPTEMBER 11

Tiziano
1

02:30 pm - 04:00 pm

Chairs: Joao Paulo Farias (Portugal), Ganesalingam Narenthiran (USA)

The role of mixed reality simulation in neurosurgical education
Giselle Coelho (Brazil)

Stimulation of motor cortex in chronic neuropathic pain treatment. Analysis of electrical impedance of tissue and stimulating thresholds within neural interface with epidural electrodes
William Omar Contreras Lopez (Colombia)

Intraoperative middle cerebral artery pressure measurements during superficial temporal artery to middle cerebral artery bypass procedure in patients with cerebral atherosclerotic disease
Fumihiko Matano (Japan)

Serum biomarkers as predictor of long term outcome in severe traumatic brain injury: analysis from a randomised placebo controlled phase II clinical trial
Amol Raheja (India)

Connectivity of the subgenual cingulate region
Francesco Vergani (Italy)
