

NETWORKING FOR **P**ROGRESS

is a grass roots group of HOA Board members from ELS age-qualified communities in Florida. We meet and discuss issues relative to our communities and homeowners associations, advocating a strong sense of empowerment and ownership, through the collective wisdom of shared experiences, education and the dissemination of information.

Our mission is to broaden the scope of interaction between the community owners and homeowners being mindful that results are better achieved when there is respect and dignity, to foster protection, enhancement and improvement within the communities.

With the clarity of a unified voice, Networking for Progress champions issues important to the quality of life and satisfaction with our chosen lifestyle.

ELS owns 118 communities in Florida, 31 RV Resorts, 13 all age Manufactured Home Communities and 74 age qualified Manufactured Home Communities. Networking for Progress consists of HOA Board members from the age qualified communities.

Using the Census Bureau 2.47% for calculating occupancy, we represent approximately 77,000 voters.

Membership, Select Committee and Joint Select Committee/ELS meetings are each held quarterly. Networking for Progress was established in 2009, there have been 25 membership meetings to date. The Joint meetings between the Select Committee and ELS started in March, 2013. The joint meeting notes are shared between Networking for Progress membership and ELS community and regional managers. ELS recently agreed to enforce the terms of agreements in those notes.
