# CINTA DE CORRER HP4T

## TREADMILL HP4T

**Driver Motor:** 5 HP motor ,with Tm5 Inverter

**Motor Control:** Sensorless Vector Control.

**Speed:** 0.5- 25 km/h para 5 HP

**Elevation:** 1/8HP, 0-15% (increments in 1°)

**LED display read:** Elapsed time, distance, elevation, speed, total calorie's burned, heart rate

**Workout Programs:** 5 Programs

(2 beginners programs, 2 advanced programs, 1 interval programs)

**Maximum user weight:** 407 lb.

**Hand Rails:** Front handle bar with hand pulse sensor & polyurethane handrail.

**Set up dimentions:** 220 cm large x 101 cm wide x 160 cm heigh.

**Running Surface :** 152 cm wide x 56 cm large.

**Power Requirements:** 220 V (50 hz).

**Steel Roller:**  $\Phi$ 100x30mm.

**Cover:** ABS

**Paint:** Poliéster.

**Warranty:** Lifetime for frame, 2 year on drive motor, and 1 year on rest of parts.

**Net Weight:** 604 lb.

- Buttons allowing users to switch between training programmes during usage.
- Default Programmes: Quick start, preset program (interval, hill, mountain, power), heart rate program (fat burn, cardio, target interval, target hill), bike mode, constant Cal/Hr.
- The console specially designed to prevent sweat from damaging the screen's inner circuits

# BICICLETA VERTICAL HP4V

## UPRIGHT BIKE HP4V

**Resistance:** 450 Watts.

**Auto Start:** Power is generated while pedaling the machine.

**Maximum User Weight:** 397 lb.

**Heart Rate Program:** Fat burn, target interval and target hill.

**Dimensions:** 118cm large x 68 cm wide x 142 cm height.

**Power Requirements:** Self powered.

**Heart rate monitoring:** Control by Polar telemetry (Polar chest belt transmitter is required).

Control heartbeat pulses.

**Workout:** Quick start, preset program (Interval, hill, mountain, power), heart rate program (fat burn, target interval, target hill), bike mode and constant Cal/Hr.

**Display:** Elapsed time, total calories burned, Watts, burned per hour, MET, working profile, resistance Level, RPM, speed per hour and distance and heart rate.

**Cover:** ABS.

**Paint:** Polyester.

**Display Type:** LED with alphanumeric message center, workout profile and time/level display below.

**Warranty:** 2 years limited warranty on mechanical and 1 year on electrical components.

**Net Weight:** 134 lb.

# **BICICLETA RECLINADA HP4R**

## **RECUMBENT BIKE HP4R**

**Resistance:** 450 Watts.

**Auto Start:** Power is generated while pedaling the machine.

**Maximum User Weight:** 397 lb.

**Heart Rate Program:** Fat burn, target interval and target hill.

**Dimensions:** 171 cm large x 68 cm wide x 139 cm height.

**Power Requirements:** Self powered.

**Heart rate monitoring:** Control by Polar telemetry (Polar chest belt transmitter is required).

Control heartbeat pulses.

**Workout:** Quick start, preset program (Interval, hill, mountain, power), heart rate program (fat burn, target interval, target hill), bike mode and constant Cal/Hr.

**Display:** Elapsed time, total calories burned, Watts, burned per hour, MET, working profile, resistance Level, RPM, speed per hour and distance and heart rate.

**Cover:** ABS.

**Paint:** Polyester.

**Display Type:** LED with alphanumeric message center, workout profile and time/level display below.

**Warranty:** 2 years limited warranty on mechanical and 1 year on electrical components.

**Net Weight:** 176 lb.

# ELÍPTICO HP4E

## ELLIPTICAL HP4E

**Resistance:** 450 Watts

**Auto Start:** Power is generated per pedaling the machine

**Maximum User Weight:** 397lb

**Heart Rate Program:** Fat Burn, Cardio, Target Interval, Target Hill

**Dimensions:** 118cm Large x 68 cm Wide x 142 cm High

**Power Requirements:** Self Powered

**Heart rate monitoring:** Pulse Digital Heart Rate Monitoring with Digital Signal Processing

**Workout:** Quick Start, preset program (interval, hill, mountain, power) heart rate program (fat burn, cardio, target interval, target hill) bike mode and constant Cal/Hr.

**Display readout:** Elapsed time, total calories burned, Watts, burned per hour, METs, working profile, resistance level, RPM, Speed per hour and distance, heart rate.

**Cover:** ABS.

**Paint:** Poliéster.

**Display Type:** LED with alphanumeric message center, workout profile and time/level display below.

**Warranty:** 2 years on mechanical and 1 year on electrical components.

**Net Weight:** 317 lb.

# **BICICLETA CICLO INDOOR CA2000**

## **INDOOR CICLO BIKE CA2000**

**Structure:** Steel tube of 2 mm.

Corrosion - resistant paint.

Regulations handlebars and rear seat on square stainless steel tube.

**Handlebars and seat:** Slip with PVC coating, adjustable device. Seat with adjustable device scaling.

**Saddle:** Large, padded and very comfortable.

**Drive System:** Belt prestressed.

**Friction System:** leather design for function Friction and emergency braking, very quiet.

**Flyer:** 21,5 Kg Axles and sealed bearings. Fixed gear.

**Pedals:** Mixed, alloy, with toe piece and straps.

Lock system.

High performance and easy to harden and block the system.

Protective anti-sweat.

Special coating on legs.

**Dimensions:** 103.5 cm. long x 64 cm. width x 130 cm. high

**Weight:** 121 lb.

**Max user weight:** 160 Kg.

**Standard Features:** Support for bottles. Wheels for easy transport, manual.
