

DISMANTLING The Doctrine of Discovery CONFERENCE

April 19-20, 2013

The purpose of the event is to bring together some of the most experienced and engaged activists, organizations and Indigenous community leaders and scholars from across the continent to create a set of tools to bring to effect the dismantling of the Doctrine of Discovery in terms of public education. The conference and community events will be a series of interactive experiences that will launch this initiative from the local and regional context of Arizona into the continental and global arena.
