MERRY CHRISTMAS TO ALL

MERRY CHRISTMAS ONE AND ALL

It's our favourite time of the year! At WERSI Direct Ltd we like to celebrate during the party season and it's on that note that we've produced this new Xmas magazine for you to enjoy!

We're taking a look back over the past year at festivals, good times shared and of course our new products.

2014 has seen the WERSI Oktoberfest sell out, a new organ launched, new softwares, least of all the extremely big upgrade 'FUSION' as well as the discovery of the famous Blackpool Tower sounds and more.

Additionally we're very proud that we've been able to bring extensions to older instruments such as the early Verona, Vegas and Abacus models, bringing them right up to date with our latest instruments. There's never been a better time to own a WERSI.

We also successfully sampled the WERSI Helios and Saturn organs from the vintage WERSI analogue range brought you new high quality samples of these fine, much loved organs of yester year.

So, here's to a new year, a new organ (The Sonic) and to the 2015 Oktoberfest. May you all have a wonderful Christmas and a very Happy New Year!

Robert, Ben & Brett

 WERSI

BLACK POOL TOWER THEATRE ORGAN SOUNDS

It's been over a decade since the old WERSI company sampled the Blackpool Tower WurliTzer organ. At the time, the sounds were lost to the depths of memory somewhere in Germany.

Several master discs were made though and one of them gifted to Robert New, WERSI Direct Ltd joint CEO. The samples were misplaced and forgotten about.

For many years customers asked if the sounds would ever see the light of day. Years went by and more than a decade passed. Then, one fateful spring afternoon, the WERSI offices were being rearranged and cleared out. A CD-ROM holder was found and just out of curiosity, it was opened. Alas, it contained the Blackpool Tower Theatre Organ original MASTER DISC.

Curiously, the CD-Rom was inserted into the computer... breaths were held. Within a few seconds, the display showed all of the original sample wave forms in their rough original recordings.

The excitement in the room was high and we immediately set to work to process the samples, clean up the audio, set the loops for the sample waves and then map the samples correctly to produce the samples for your WERSI OAS organs.

The samples work with ALL WERSI OAS organs and keyboards (inc. OAS 2.25, OAS 3.30, OAS 4.14, OAS 5, OAS 6 & OAS 7 instruments).

The Sounds....

The sounds are of exceptionally high quality. The samples were recorded with a stereo microphone assembly, with a setup in the pipe chamber as well as in the actual ballroom to provide a true sound of the famous Theatre Organ.

The famous Pistons 2,4,5 & 10 were sampled as well as other typical 'Blackpool' settings. The package includes the sounds in their true form as well as some combinations for the true Blackpool Sound.

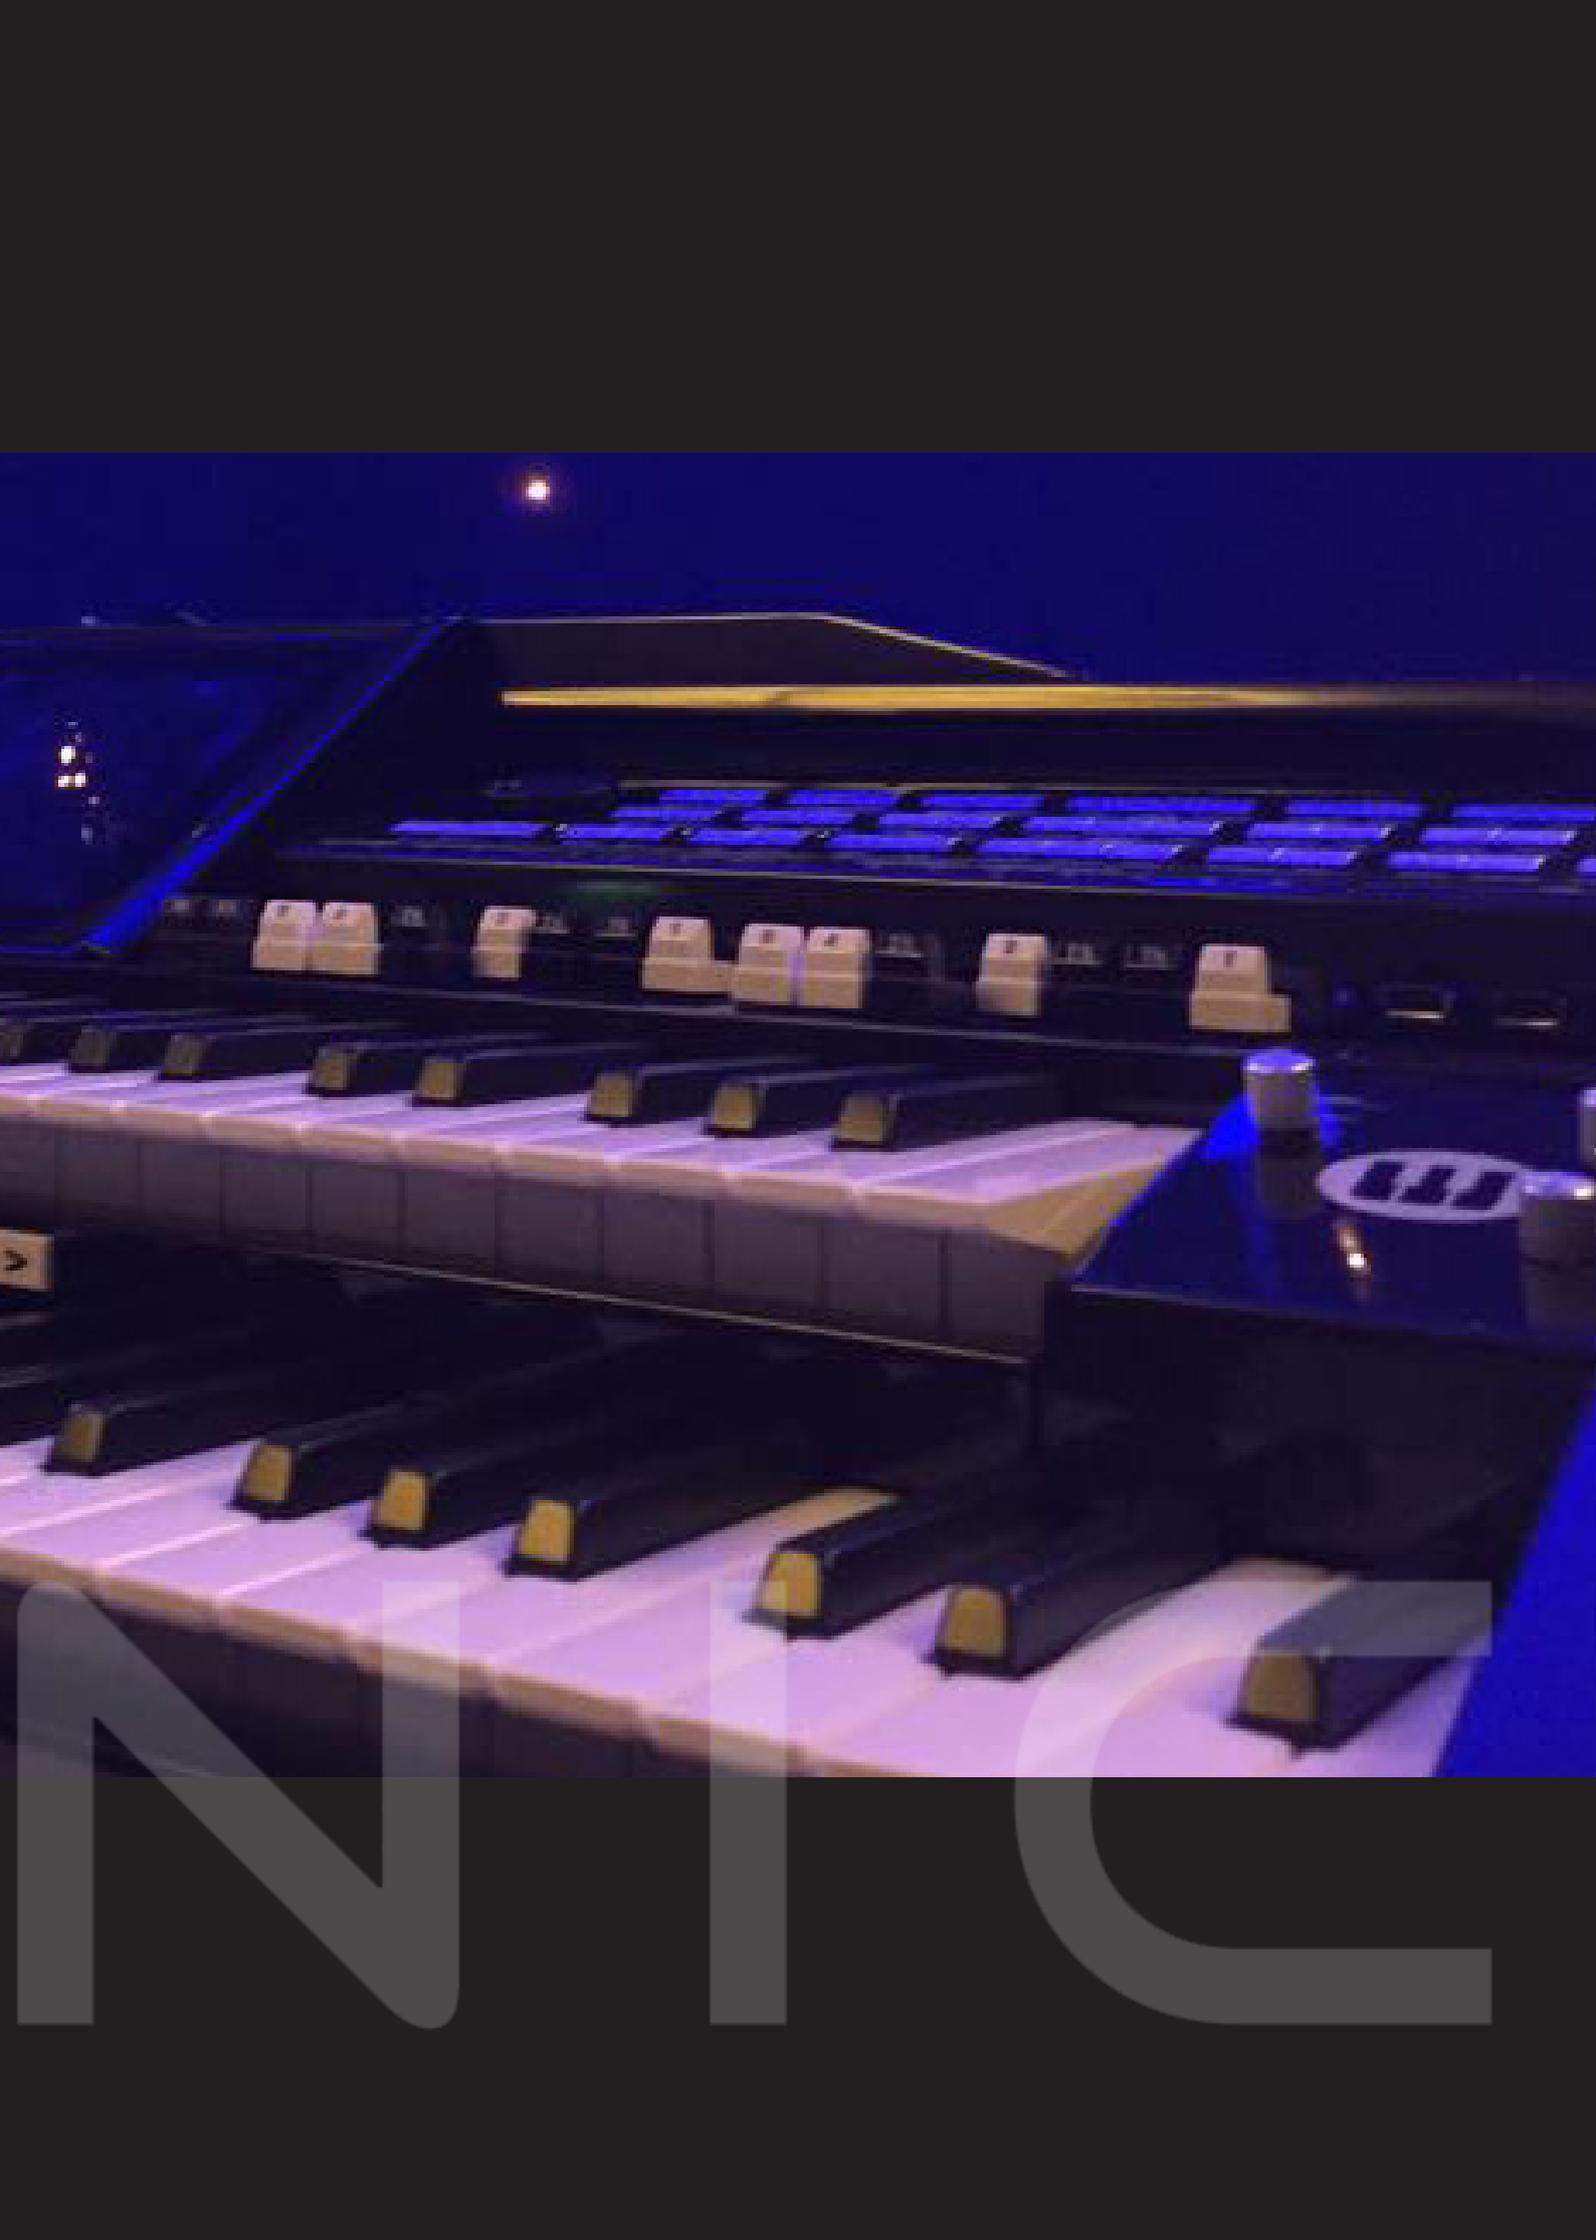

If you're a fan of the Theatre Organ Sound, and genuinely want the REAL sound of the Blackpool Tower organ in your WERSI, then indulge yourself in this magical new collection of sounds!

VERONA GS500

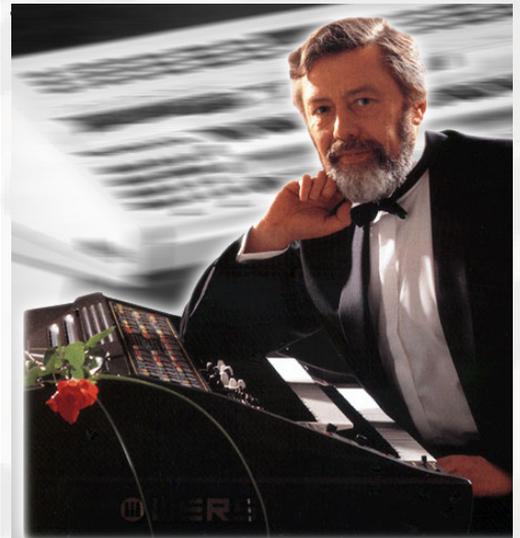

KLAUS WUNDERLICH EDITION

If you've purchased the Klaus Wunderlich Edition (Keys for Lovers), why not purchase the upgrade pack that provides you with the rest of the Klaus Wunderlich WERSI Spectra sounds?

system is something of a favourite among WERSI fans. The fact that we can now incorporate these sounds into the OpenArt-System is something out of a dream. But it is a dream that is now reality.

It's cheaper than purchasing the entire KW Sound Library, and as you already have the first batch of sounds, it's a great way to expand your sound library with these wonderful vintage WERSI sounds.

Purchase online from www.wersidirect.com

Sounds include: Hollywood Strings, Cinematic Strings, Lush

This has been a long time coming and we're proud to present this

For many years customers have asked for a bigger scope of Orchestral sounds. Now

CELTIC SOUNDS (UPDATED IN 2014)

NEW LONGWAVE SOUNDS COVERING THE BEAUTIFUL CELTIC GENRE...

The sound of the Celtic Wilderness... beautiful and wonderful sounds that you'll love to play with on your OAS instrument!

The enchanting Irish Flutes, Penny Whistles and Folk Violins are just fantastic. The pitching and variations of the sounds lead to a fantastic new sonic soundscape, never previously heard in a WERSI instrument!

Furthermore, the beautiful new sounds are Stereo Samples and contain multi zones. This means that different octaves contain different special samples and effects. For example, the Ullian Pipes contain register effects and drones at the lower octaves, as does the Highland Pipe sounds.

We've also included a set of novelty Percussion sounds

for you. Beautiful metal wind chimes and ancient wooden wind chimes are plentiful with both ascending and descending effects for your pleasure.

We've also paid close attention to the playability of such sounds and have designed the FX sounds to continuously play for greater effect, just like a Real Instrument!

The pitching of instruments have been recreated with tuning features. Most Celtic folk instruments are not perfectly tuned and along with the playing style that manipulate pitches... we've built this into the sounds so that you don't have to worry too much about playing the sounds like a Celtic player!

ANDRE RIEU

Edition for OAS 7
& Pegasus Wing
£44.99

The wonderful sound of the Andre Rieu violin and his orchestra is at your finger tips! His beautiful vintage violin sound is loved the world over!

This new software features both professionally created sound registrations, but also features 'Sound Control' and 'Expression Control' for the most beautiful and expressive sound.

As you play, you'll hear the sound of violins, orchestral strings, choirs and more weave together in harmony as you use your expression pedal for beautiful

GLEN MILLER

Edition for OAS 7
& Pegasus Wing
£39.99

The sound of Glen Miller and his orchestra is possibly the best known and loved BigBand in history. Your WERSI OAS instrument has such high end samples of brass, woodwind and more that it can produce the Glen Miller sound perfectly. It's magic!

The new Glen Miller Magic software allows to faithfully recreate the sound of the Glen Miller Orchestra in exact detail.

We've used the advanced Selectors, Sound Control and effects section of your instrument to provide the best and most realistic BigBand sound possible!

LADY GAGA EDITION FOR OAS 7 &

PWAS instrument line provides customers with the option of creating all types of music. Whether that be Classical, BigBand, Pop or Dance etc.

This is an exciting edition and with over 40 Total Presets, you'll be impressed by the Sonic variety!

Lady GaGa has scored some impressive catchy hits over the past 5 years. Due to popular demand, we've created a Registration library of Lady GaGa songs. This is available for both Pegasus Wing and also for OAS 7.

Selectors, Effects, Mixer Settings and Advanced settings have all been preset by Professionals at WERSI Direct.

Furthermore, the sounds have been tweaked by using the Sound Control function for even more interesting sounds!

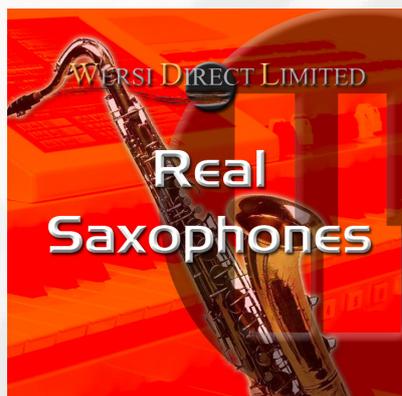

The Sound Library fuses Orchestral and synth sounds together in a way that you've never heard before on a WERSI instrument!

www.wersidirect.com

NEW REGISTRATIONS

REAL SAXOPHONES £24.99

The sound of a Saxophone is quite something! We love the breathy sound, the reedy sassyness of the Sax!

This is a registration library covering 20 Different Real Sax sounds.

Tweaked and modified through Sound Control, you'll love the new Expressive feeling that you get from them. A must have!

Big Band Vol.2 £44.99

The sequel to the successful 'BigBand Vol.1'.

Volume 2 focuses on the roaring golden age of BigBand, the American and post war celebrations, BigBand Night Clubs, Band Stands and more!

New BigBand combinations and more are all available for your playing pleasure! This is even better than the first
