The 16-Ounce bottle easily stores in the Kitchen, Bathroom, Basement and Garage. It has a special fine-mist spray nozzle designed to enhance Zero Odor's ability to eliminate odor in the air. And penetrate deep into fabrics and carpeting to remove even the most difficult odors. Spray Zero Odor in the air and on surfaces to eliminate odor from any room.

Zero Odor is a new technology platform in odor control for your Household needs. When you spray Zero Odor in the air or on a surface, it seeks out and bonds with odor molecules. And turns them into non-odor molecules instead of masking them with fragrances or perfumes. The bonding process happens very quickly, it is irreversible. So any odor that Zero Odor touches is gone forever and will never return.

Zero Odor is formulated to leave no scent or fragrance behind—only clean, crisp, fresh smelling air. There is a slight “tracer scent” in the product to help consumers know where they have sprayed. The tracer scent disappears after a minute or two.

The Zero Odor family of products are available for Household, Pet and Laundry, each sold separately. Zero Odor is Made in the USA. It's Non-toxic, Non-allergenic and Biodegradable.
