About Rugby

Rugby, with a treasury of CAD \$2.6 million, is an emerging mineral resource company focussed on the discovery of large scale gold and copper porphyries and epithermal gold-silver projects. The management team has a track record in the successful exploration and development of major resource projects in different mining jurisdictions

Mabuhay Project, Philippines: The Company holds an option to acquire up to 80% of the Mabuhay project in Surigao Province. The Company considers the project to have excellent potential for the discovery of both epithermal gold deposits and gold-copper porphyry systems.

Comita Project, Colombia: Rugby holds an option to earn up to 60% of Comita, an undrilled large scale porphyry copper-gold project in the western cordillera of Colombia. The project was recognised during a joint German-Colombian government sponsored exploration program over 20 years ago. No systematic exploration has been conducted since that time.

Hawkwood Project, Australia: Rugby holds an option to acquire 90% of the Hawkwood project in Queensland. The property, covering 427 km² is prospective for gold, copper-gold and iron deposits. In January 2010, the Company entered into an agreement with Eastern Iron Limited wherein that company can earn an 80% interest in iron ore targets in the project area. To date Eastern Iron has conducted several programs, including geophysical surveys and drilling.
