

Kerry Fish Farms Radio Kerry 7<sup>th</sup> Nov 2012

Kerry is among the locations being considered for new fish farms. Bord Iascaigh Mhara is looking into a number of possible locations for the development of organic salmon farms. It could create hundreds of local jobs. Mayo and Donegal are also being considered by BIM. The group is to meet fishermen in [west](#) Kerry in the coming weeks in a bid to identify preliminary sites for the farms.

Kerry South TD Brendan Griffin said the idea came from a meeting he attended recently with Minister Simon Coveney along with fishermen from Ballydavid and Cllr Seamus Cosáí Fitzgerald.
