

Immunization Clinics

Public Health Immunization Clinics provide immunizations to all residents. Huron County Public Health participates in Vaccines for Children, a program that provides low-cost vaccines for infants and children through age 18 who do not have insurance coverage for immunizations. **No child is turned away** for Vaccines For Children (VFC) vaccines if their family is unable to pay for the shots.

Appointments are required: Call Huron County Public Health to make your appointment at 419-668-1652 ext. 241. Evening appointments are available.

Payments: We accept all Medicaid. No child is turned away for Vaccines For Children (VFC) vaccines if their family is unable to pay for the shots.

We are an in-network immunization provider for Medical Mutual, HealthSmart and Ohio Choice Plan. For families covered by other private insurance companies, we can give you a receipt for reimbursement from your insurance company.

Records: Please bring an up-to-date record of all past immunizations.
