

Geometry

Triangle Congruence (ASA, AAS)

YAY MATH!

The following exercises are covered in the video. During the lesson, we provide information which allows us to prove the pairs of triangles congruent.

Please prove the triangles below are congruent in a 2-column proof.

Prove: $\triangle BAC \cong \triangle DAC$

Statements	Reasons
$\angle B \cong \angle D$ \overline{AC} bisects $\angle BAD$	Given
