Rapid Decision Senior Life Term & Whole Life from Fidelity Life Association

Established 1896

Rapid Decision Senior Life

Rapid Decision Senior Life insurance is designed to fit the needs of individuals ages 50 to 85. This flexible product offers a choice of either term insurance for those seeking pure protection or whole life for those who wish a cash value accumulation and final expense protection. Each provides customers with partial coverage immediately and full coverage starting in year four.

Policy issuance does not require a medical examination.¹ Instead, approval depends on the answers to health questions on the application and results from database sources. Although the eligibility questions cover individuals with some impairments, the products are not suitable for applicants with serious health or other risk issues or who have a limited life expectancy.

Fidelity Life Association offers vast industry experience, competitive rates and quality service. That is innovation born from over 100 years of experience protecting the families of Middle America.

People just like you.
