1.3 Headings and Sub-headings

Incorporate headings and sub-headings throughout the manuscript to aid readability. First order headings should be centered and all capital letters. Second order headings should be set flush left with initial caps at font size of 12. Headings should be descriptive and informative, yet not standard academic style.

2. SUBMISSION AND PROOFREADING

Authors should carefully proofread their manuscripts prior to submission. Please pay careful attention to spelling and grammar, in particular. Also, please rely on gender neutral language. Manuscripts with extensive errors will be returned without review.

Submission of a manuscript to MICON implies a commitment by the author(s) to engage in the review process and to have the article published should it be accepted. Articles previously published, those under consideration by another conference, and those with a pre-existing copyright may not be submitted for review and consideration.

3. REFERENCES

MICON uses the APA (American Psychological Association) referencing style. It should be noted that only works cited in the manuscript can be included in the references section. The references should begin with the heading **REFERENCES** appearing centered at the top of the page. Any full or partial with-in text quoted material should include the relevant page number(s) with the source citation (e.g., Author & Author, 2008, p.1). Please also note the use of ampersand for within text citations contained in parentheses. Authors should carefully document their work, and a complete list of references should appear at the end of the text.
