

How to Install DRONEFIGHTER Driver On Windows 7

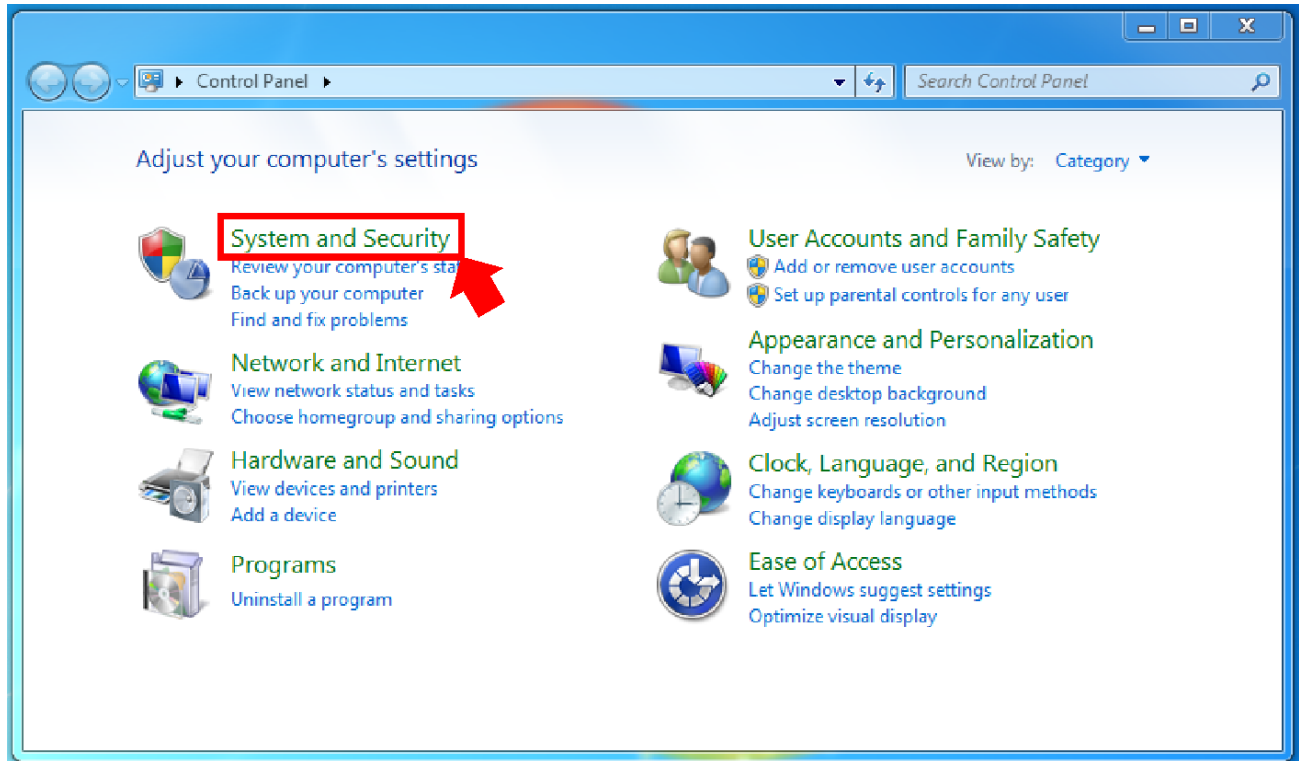

1. Go to **START** → **Control Panel**

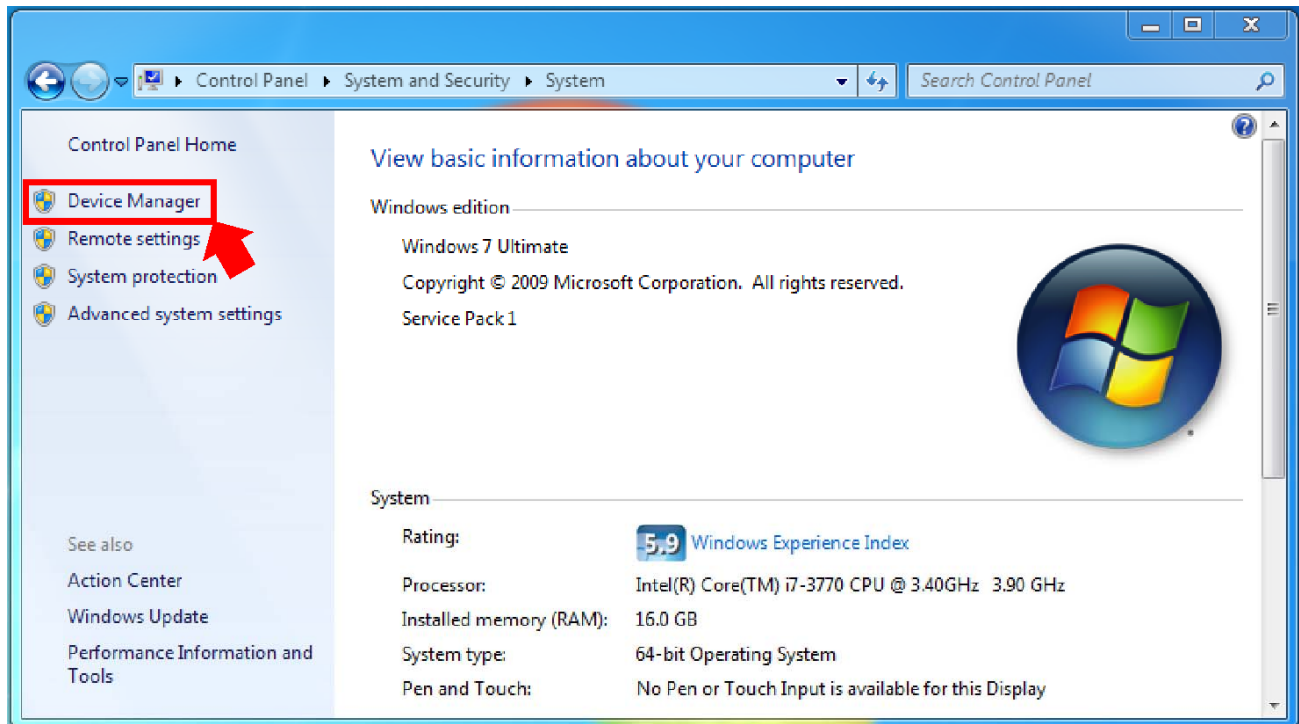

2. Select '**System and Security**'

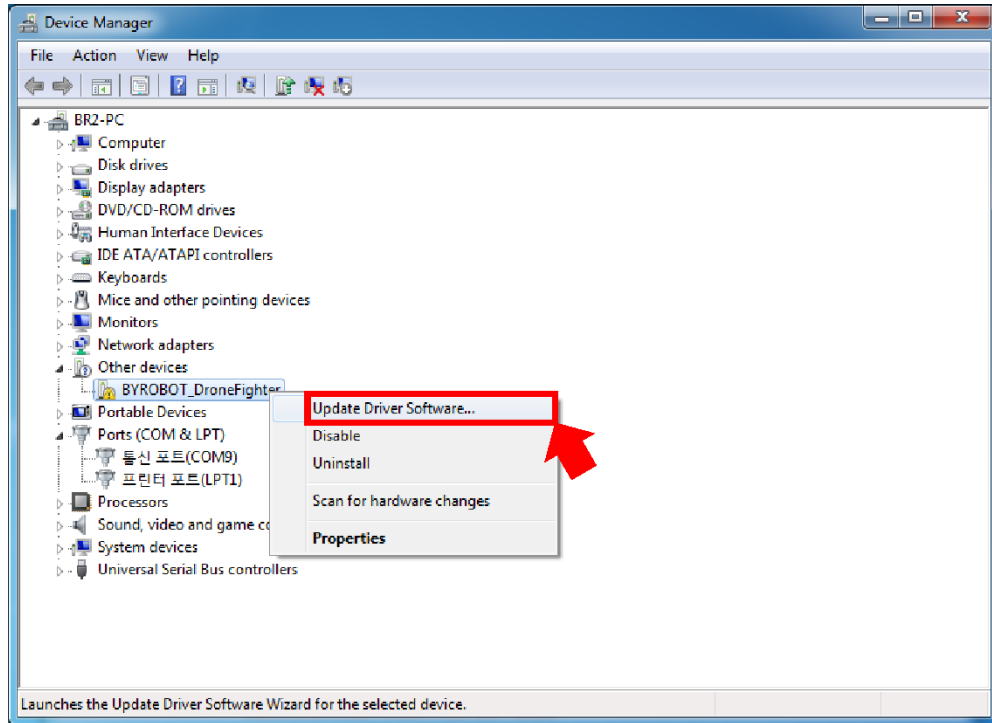

3. Select 'System'

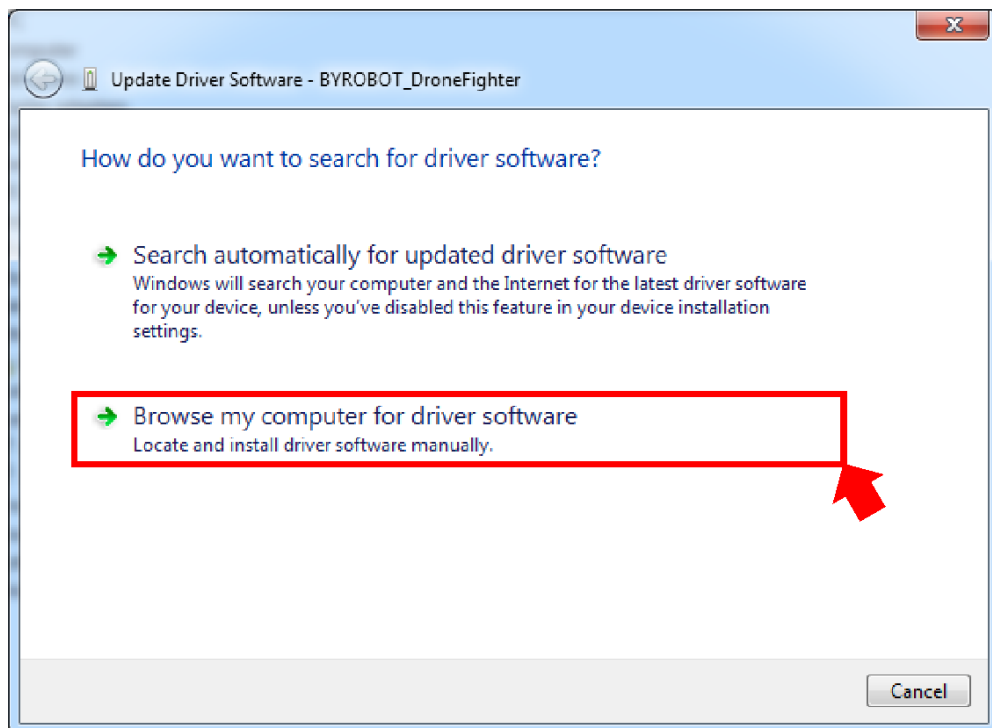

4. Select 'Device Manager'

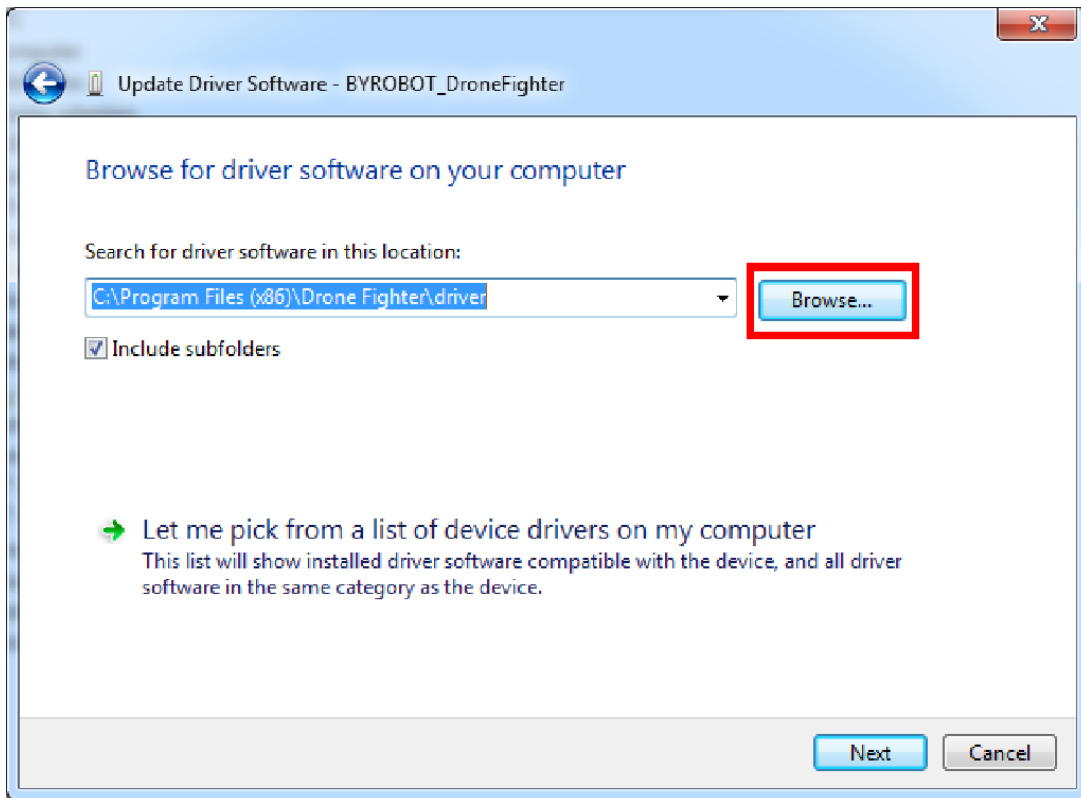

5. Right click on **'Other devices'** → **'Byrobot Q-Control'** atau **'BYROBOT_DroneFighter'** and select **'Update Driver Software...'**

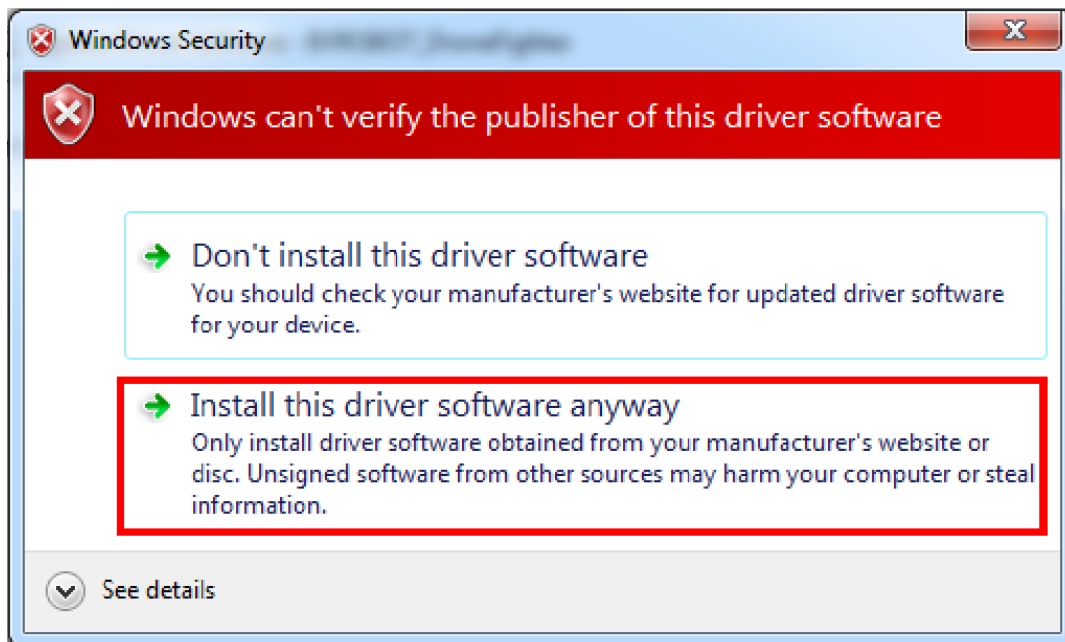

6. Select **'Browse my computer for driver software'**

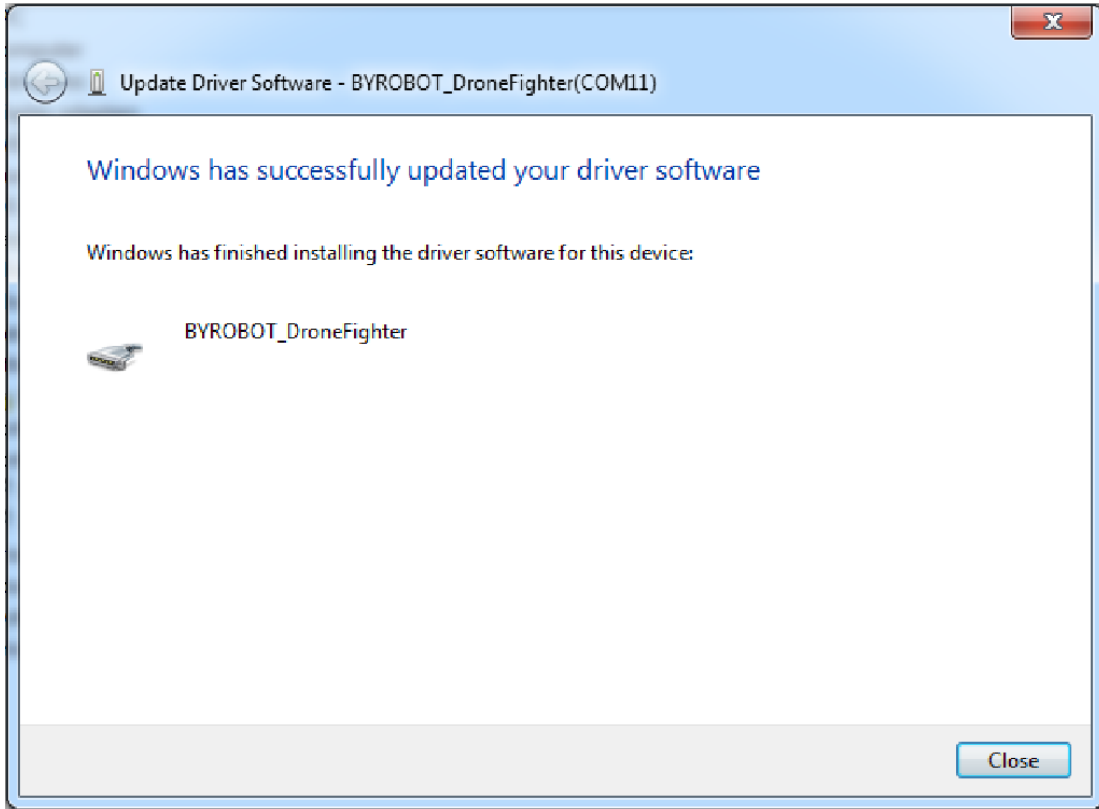

7. Click **'Browse'** to locate the driver at **'C:/Program Files (x86)/Drone Fighter/Driver'** folder and click **'Next'**

7. Select **'Install this driver software anyway'**

9. The Drone Fighter driver has been installed

10. You can now run the simulator.
