Tucson, AZ 85714

Dear Sir:

Thank you for addressing our concerns. The results of the testing performed for your "Sharpshot M-60/F-80" brand abrasive in order to determine its continued conformance to the performance requirements of MIL-A-22262B(SH) and Amendment-1, were reviewed and found to be acceptable.

Your "Sharpshot M-60/F-80" abrasive product will be retained on Qualified Products List, QPL-22262. The Calcoast Analytical report #10245-2A/95 dated 28 November 1995 will become a part of your qualification test package and will be shown under the Qualification Test Reference column for your product on QPL-22262.

The point of contact for QPL-22262 is Joann M. Starks, (703) 602-9137, Ext. 123 if you have questions regarding anything contained in this letter.

Sincerely,

Cheryl A. Turner

Subject: Qualifying Two New Sizes Q-2015-019 MIL-A-22262B SharpShot Copper Slag abrasive Q-2015-019
Date: February 2, 2015 at 10:35:54 AM MST

Steve,

NAVSEA does not require further analysis for various sizes for your QPL qualified "SharpShot" copper slag abrasive. You can provide "SharpShot" in various sizes and there is no requirement that the sizes be listed on QPL-22262. Let us know if you have any further questions.
