

# DIABETES

## Burden of Diabetes

**6%** of Lake County adults have been diagnosed with diabetes

**14%** of Lake County adults have been diagnosed with pre-diabetes

over  
**31,000**  
adults have been diagnosed with diabetes

and about another  
**73,000**  
have been diagnosed with pre-diabetes

 **\$7,900**  
average annual diabetes costs for each person on with diabetes

Nationally,  
**up to 28%**  
of people with diabetes  
**don't know**  
they have it

An unequal burden

**Hispanics & African Americans** are over **1.6x** as likely as whites to be diagnosed with diabetes

**African Americans** ages 45-74 are **3x** more likely to die of diabetes than whites in Lake County

**DIABETES MELLITUS**  
**#6** LEADING CAUSE OF DEATH  
& **#4** CAUSE OF EARLY DEATH  
IN LAKE COUNTY
