

GLOBAL HEALTH

IT'S MORE THAN MEDICINE

VISION

To help build a global community where the basic living conditions and health needs of all are met.

MISSION

To eradicate health & economic disparities in the global community through the establishment of an advocacy network that coalesces and fortifies partnerships with collegiate, business, government, & other non-government organizations (NGOs).

PROGRAMS & INITIATIVES

Partnership Access Research & Training (PART): Network of students, professors, and professionals committed to achieving GHCI's mission and providing the world with the next cadre of minority global health professionals.

Looking Forward: STEM-enriched mentoring partnerships with other NGO's and public schools to promote global health career opportunities.

Staying Connected: GHCI's Student Ambassador Program connects minority students interested in global health and builds a network for them to share experiences.
