

2016 | **FINANCIAL 15 SPLIT CORP.**
SEMI-ANNUAL REPORT
(UNAUDITED)

FINANCIAL 15

This report may contain forward-looking statements about the Company. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar expressions. In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Company action, is also forward-looking. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Company and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Company. Any number of important factors could contribute to any divergence between what is anticipated and what actually occurs, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technology change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

The above-mentioned list of important factors is not exhaustive. You should consider these and other factors carefully before making any investment decisions and you should avoid placing undue reliance on forward-looking statements. While the Company currently anticipates that subsequent events and developments may cause the Company’s views to change, the Company does not undertake to update any forward-looking statements.

FINANCIAL 15 SPLIT CORP.
SEMI-ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE
MAY 31, 2016

This is the semi-annual Management Report of Fund Performance (MRFP) for the period ended May 31, 2016. This MRFP contains financial highlights but does not contain the complete financial statements of the Company. The semi-annual financial statements and accompanying notes are attached to this report.

Investors may also obtain a copy of the Company's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure by visiting our website at www.financial15.com or by writing to the Company at Investor Relations, TD Tower North, 77 King Street West, P.O. Box 341, Toronto, Ontario, M5K 1K7.

These reports are available to view and download at www.financial15.com or www.sedar.com.

INVESTMENT OBJECTIVES AND STRATEGIES

Financial 15 Split Corp. invests primarily in a portfolio of commons shares (the "Portfolio"), which will include each of the 15 financial services companies listed below:

Canadian issuers	U.S. issuers
Bank of Montreal	Bank of America Corp.
The Bank of Nova Scotia	Citigroup Inc.
Canadian Imperial Bank of Commerce	Goldman Sachs Group Inc.
CI Financial Corp.	J.P. Morgan Chase & Co.
Great West Lifeco Inc.	Wells Fargo & Co.
Manulife Financial Corporation	
National Bank of Canada	
Royal Bank of Canada	
Sun Life Financial Inc.	
The Toronto-Dominion Bank	

The Company may also invest up to 15% of the Net Asset Value in equity securities of issuers other than the 15 financial services companies listed above. In order to supplement the dividends received on the Portfolio and to reduce risk, the Company will from time to time write covered call options in respect of some or all of the common shares in the Portfolio.

The Company offers two types of shares:

Preferred Shares (FTN.PR.A)

The investment objectives with respect to the Preferred shares are as follows:

1. To provide holders of Preferred Shares with cumulative preferential monthly cash dividends, currently in the amount of 5.25% annually, to be set by the Board of Directors annually subject to a minimum of 5.25% until 2020; and
2. On or about the termination date of December 1, 2020 (subject to further 5 year extensions thereafter), to pay the holders of the Preferred Shares \$10 per Preferred Share.

Class A Shares (FTN)

The investment objectives with respect to the Class A shares are as follows:

1. To provide holders of Class A shares with regular monthly cash distributions in an amount to be determined by the Board of Directors; and
2. To permit holders to participate in all growth in the net asset value of the Company above \$10 per Unit, by paying holders on or about the termination date of December 1, 2020 (subject to further 5 year extensions thereafter) such amounts as remain in the Company after paying \$10 per Preferred Share.

RISK

The risks of investing in the Company remain as discussed in the Annual Information Form dated February 22, 2016. In addition, Note 5 of the annual financial statements ("Management of Risk of Financial Instruments") contains disclosure on specific types of risks related to the financial investments held by the Company.

RESULTS OF OPERATIONS

The six month period ended May 31, 2016 largely reflected a mixed and slightly divergent performance for Canadian and U.S. financial services companies.

Canadian financial services companies generally performed better reflecting the potential impact that the significant continued recovery in oil and other commodity prices during the February to May period would have on the Canadian economy. U.S. financial services companies struggled as previous expectations for several Fed rate increases, which would have been favorable for net interest margins and improved profitability for the U.S. banks, diminished during 2016. This is as a result of geopolitical events, and low and negative worldwide interest rates, which conspired to keep the Fed from making any further rate increases during the period.

The Canadian banks, in particular, held in the portfolio continue to exhibit relatively attractive dividend yields and dividend growth capability in this low interest rate environment.

The Net Assets per unit finished at \$15.63 per unit (consisting of one Preferred share and one Class A share) as at May 31, 2016 after the payment of \$1.02 in combined distributions to both classes of shares at the targeted rates.

The Company completed a successful overnight secondary offering on December 4, 2015 that resulted in the issue of 3,335,474 Preferred Shares and 2,502,700 Class A shares for net proceeds of \$55.7 million. The issuance of these shares was accretive to existing shareholders.

Net Assets for the Company finished the period at \$297.3 million.

The portfolio was weighted 65.9% in Canadian financial services stocks versus 34.1% in U.S. financial services stocks as at May 31, 2016.

The covered call writing program continued to provide additional income and supplemented the dividend income in the portfolio.

Class A shares – Distributions

Class A shareholders are entitled to receive regular monthly cash dividends currently targeted to be \$0.1257 per Class A Share. Six monthly distributions for a total of \$0.7542 per Class A share were made during the period.

Preferred shares – Distributions

Preferred shareholders are currently entitled to fixed, cumulative preferential monthly cash dividends in the amount of \$0.04375 per Preferred Share to yield 5.25% per annum on the Preferred Share Repayment Amount. Distributions paid during the period were at the fixed rate for a total of \$0.2625 per share.

Cumulative Distributions since inception

Cumulative Distributions since inception

RECENT DEVELOPMENTS

There were no developments during the period.

RELATED PARTY TRANSACTIONS

Quadravest Capital Management Inc. (“Quadravest”) as Investment Manager and Manager earns fees from the Company as described below in the Management Fees section.

FINANCIAL HIGHLIGHTS

The following tables show selected financial information about the Company and are intended to help you understand the Company's financial performance for the past five years. This information is derived from the Company's semi-annual financial statements and previous audited financial statements. The information in the following table is presented in accordance with National Instrument ("NI") 81-106 and, as a result, does not act as a continuity of opening and closing Net Asset Value and Net Assets per unit. Periods beginning on or after December 1, 2013 follow International Financial Reporting Standards (IFRS) and periods prior to December 1, 2013 follow Canadian GAAP. As such, the Net Assets included in the Net Assets per unit table is calculated using bid prices under Canadian GAAP up to November 30, 2013 and using closing prices under IFRS from December 1, 2013 onwards. The Net Asset Value included in the Ratios/Supplemental data Table is for transactional pricing purposes and calculated using closing prices (see Note 3 in the financial statements).

The Company's Net Assets per unit

Net assets per Class A share	<u>5.63</u>	<u>6.85</u>	<u>7.77</u>	<u>7.14</u>	<u>4.37</u>	<u>2.99</u>
Net assets per unit at end of period	15.63	16.85	17.77	17.14	14.37	12.99

- (1) Net assets per unit is the difference between the aggregate value of the assets of the Company and the aggregate value of the liabilities excluding the Preferred shares of the Company on that date divided by the number of units then outstanding.
- (2) Total increase (decrease) from operations is before the payment of Preferred and Class A share distributions and is calculated based on the weighted average number of units outstanding during the period.
- (3) Distributions on the Preferred shares and Class A shares are based on the number of Preferred shares and Class A shares outstanding on the record date for each distribution in the period and were paid in cash. Characterization of distributions is based on the tax treatment that is received by investors.
- (4) All per unit figures presented in 2016, 2015 and 2014 are referenced to net assets determined in accordance with IFRS and are derived from the Company's semi-annual and audited annual financial statements for those periods. Per unit figures presented for periods prior to December 1, 2013 were derived from the Company's audited annual financial statements that were prepared in accordance with Canadian GAAP as defined in Part V of the CPA Handbook for prior periods.

RATIOS AND SUPPLEMENTAL DATA

	May 31, 2016	┌ 2015	Periods ended November 30 └			
			2014	2013	2012	2011
Net asset value (millions) ⁽¹⁾	\$297.3	\$278.4	\$259.1	\$185.2	\$133.2	\$120.8

Management expense ratio per Class A share ⁽⁴⁾	15.0%	11.79%	13.78%	14.68%	16.76%	13.30%
Portfolio turnover rate ⁽⁵⁾	1.1%	10.0%	23.1%	53.1%	44.2%	12.2%
Trading expense ratio ⁽⁶⁾	0.03%	0.02%	0.03%	0.06%	0.06%	0.02%
Closing market price (TSX): Preferred shares	\$9.83	\$10.01	\$10.14	\$10.04	\$10.28	\$9.90
Closing market price (TSX): Class A shares	\$8.45	\$9.80	\$10.04	\$8.80	\$4.55	\$3.50

(1) This information is provided as at May 31 or November 30.

(2) A separate base management expense ratio has been presented to reflect the normal operating expenses of the Company excluding any one time secondary offering expenses. Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of average net asset value during the period.

(3) Share issue expenses, representing all Agents' fees and other offering expenses are one time initial expenses connected with the launch of the Company or any subsequent secondary offering. Any expenses incurred with secondary offerings were offset by the accretion to Net Assets per unit of such offerings.

(4) Management expense ratio for Class A shares is based on the requirements of NI 81-106. This instrument requires that all Split share companies produce an expense ratio which allocates all operating expenses of the Company, all distributions on Preferred shares and all issuance costs to the Class A shares and expresses this as an annualized percentage of net assets applicable only to the Class A shares during the period. The management expense ratio per Class A share should not be interpreted as the required return necessary for the Company or the Class A shares to cover the operating expenses of the Company. This calculation is based only on a portion of the Company's assets whereas the Company utilizes its entire assets to generate investment returns. Management believes that the base management expense ratio per unit disclosed in the table above is the most representative ratio in assessing the ongoing efficiency of the administration of the Company, making comparisons to the expense ratios of single unit mutual funds or determining the minimum investment returns necessary by the Company to achieve growth in Net Asset Value per unit.

(5) The Company's portfolio turnover rate indicates how actively Quadravest manages the portfolio investments. A portfolio turnover rate of 100% is equivalent to the Company buying and selling all of the securities in its portfolio once in the course of the year. The Company employs a covered call writing strategy which can cause the portfolio turnover rate to be higher than conventional mutual funds. The higher the Company's portfolio turnover rate in a year, the greater the trading costs payable by the Company in the year and the greater chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the Company.

(6) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average net asset value during the period.

MANAGEMENT FEES

Pursuant to the terms of the investment management agreement, Quadrainvest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the Net Asset Value of the Company, which include the outstanding Preferred shares, calculated as at each month-end valuation date. In addition, Quadrainvest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Pursuant to the administration agreement, Quadrainvest is entitled to an administration fee payable monthly in arrears at an annual rate equal to 0.1% of the Net Asset Value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

The base management fee was used by Quadrainvest to provide investment analysis, make investment decisions, and make brokerage arrangements for the purchase and sale of securities including the covered call writing program. The administration fee was used to provide or arrange administrative services required by the Company which includes all operational services, financial accounting, shareholder reporting and regulatory reporting.

PAST PERFORMANCE

Year-by-Year Returns

The past performance of 1) the Net Asset Value per unit; 2) the Preferred share on a Net Asset Value basis; and 3) the Class A share on a Net Asset Value basis for each of the last 10 years are presented in the bar charts below. Each bar in the chart reflects the change in percentage terms of how a unit, a Preferred share or a Class A share would have increased or decreased during the applicable year. In respect to the charts displayed below, please note the following:

- The performance information shown assumes that all cash distributions made by the Company during the years shown were reinvested in the applicable additional securities of the Company;
- The performance information does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance; and
- Past performance of the Company does not necessarily indicate how it will perform in the future.

FINANCIAL 15 SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2016 AND 2015 (UNAUDITED)

1. Incorporation

Financial 15 Split Corp. (the “Company”) is a mutual fund corporation established under the laws of the Province of Ontario on September 26, 2003 that began investment operations on November 14, 2003. The manager and the investment manager of the Company is Quadravest Capital Management Inc. (“Quadravest”). The termination date of the Company is December 1, 2020 and may be extended thereafter at the Company’s discretion for additional terms of five years each. Shareholders would be provided with a special retraction right in connection with any such extension. The Company’s principal office is located at 77 King Street West, Suite 4500, Toronto, Ontario M5K 1K7. The Company invests primarily in an actively managed portfolio of common shares of 15 core large capitalization Canadian and US financial services companies. The Company employs an active covered call writing program to enhance the income earned from the portfolio.

2. Basis of presentation

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”), as applicable to the preparation of interim financial statements, including International Accounting Standard (“IAS”) 34, Interim Financial Reporting. These financial statements should be read in conjunction with the annual financial statements for the year ended November 30, 2015, which were prepared in accordance with IFRS.

These financial statements were approved by the Board of Directors of the Company on July 20, 2016.

3. Summary of significant accounting policies

The following is a summary of the significant accounting policies followed by the Company.

Investments and financial instruments

The Company recognizes financial instruments at fair value upon initial recognition.

The Company’s investments are designated at fair value through profit or loss (FVTPL) and derivatives (including options) are held for trading and also carried at FVTPL.

The Company recognizes regular purchases and sales of financial instruments on the trade date, which is the date on which it commits to purchase or sell the instrument. Transaction costs, such as brokerage commissions, related to financial assets classified or designated as at FVTPL are expensed as incurred and transaction costs related to financial instruments not at FVTPL are included in the carrying amounts thereof. A financial asset is derecognized when the rights to receive cash flows from the investment have expired or have been transferred and when the Company has transferred substantially the risks and rewards of ownership of the asset. Dividends are recognized as income on the ex-dividend date. Realized gains and losses and unrealized appreciation and depreciation are determined on an average cost basis. The cost of investments is determined using the average cost method.

The preferred shares rank prior to the Class A and Class B shares and are thus not subordinate to all other classes of instruments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost. Amortization of premiums or discounts on the issuance of preferred shares is included in gain (loss) on remeasurement of preferred shares in the statement of comprehensive income.

The Class B shares are subordinate to the preferred shares but rank prior to the Class A shares and are thus not subordinate to all other classes of puttable investments and therefore, the shares have been classified as financial liabilities. These shares are carried at amortized cost.

FINANCIAL 15 SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2016 AND 2015 (UNAUDITED)

The Class A shares may be retracted monthly, annually, or on the termination date of the Company. As a result, the shares contain multiple contractual obligations, and therefore, have been presented as financial liabilities at the annual redemption amount.

Financial assets and liabilities other than investments, derivatives, and Class A shares are recognized initially at the amount expected to be received or paid less, when material, a discount to reduce them to fair value. Subsequently, they are measured at amortized cost using the effective interest rate method less a provision for impairment, if any. Due to their short-term nature, the fair values of these financial assets and liabilities approximate their carrying amounts.

Valuation of investments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded shares and options) are based on the last traded prices at the close of trading on the reporting date. The Company uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. The Company's policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances giving rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and others commonly used by market participants and which make the maximum use of observable inputs. Refer to Note 5 for further information about the Company's fair value measurements.

Cash

Cash consists of cash on hand.

Translation of foreign currencies

The Company's functional and presentation currency is Canadian dollars. The fair value of investments and other assets and liabilities in foreign currencies are translated into the Company's functional currency at the rates of exchange prevailing at each measurement date. Purchases and sales of investments, income and expenses are translated at the rates of exchange prevailing on the respective dates of such transactions.

Management fees, administration fees and performance fees

Management fees and administration fees are accrued by the Company over time, as services are rendered by Quadravest. At each measurement date, the Company recognizes an expense and financial liability based on the amount, if any, of performance fees expected to be paid based on the current fair value of the Company's net assets. Refer to note 7 for further information about the calculation of management, administration fees and performance fees, if any, of the Company.

FINANCIAL 15 SPLIT CORP.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE SIX MONTH PERIOD ENDED MAY 31, 2016 AND 2015 (UNAUDITED)

Increase (decrease) in Net Assets Attributable to Holders per Redeemable Class A share

Increase (decrease) in net assets attributable to holders per redeemable Class A share is based on the increase or decrease in net assets attributable to holders of redeemable Class A shares divided by the weighted average number of such shares outstanding during the year. Refer to note 8 for the calculation.

Taxation

The Company qualifies as a mutual fund corporation under the Income Tax Act (Canada) (the "Tax Act") and it is subject to income tax in each taxation year on the amount of its net income for the taxation year, including net realized taxable capital gains, if any, at the rate applicable to mutual fund corporations. The general income tax rules associated with a public corporation also apply to a mutual fund corporation with the exception that taxes payable on net realized capital gains are refundable on a formula basis when its shares are redeemed or when it pays capital gains dividends out of its capital gains dividend account to its shareholders.

Interest and foreign income are taxed at normal corporate rates applicable to mutual fund corporations and can be reduced by permitted deductions for tax purposes.

All of the Company's expenses including management fees, administration fees and operating expenses will be taken into account in determining its overall tax liability.

As a mutual fund corporation, taxable dividends received from taxable Canadian corporations are subject to a Part IV tax of 33 1/3%. Such taxes are fully refundable upon payment of taxable dividends to its shareholders on a basis of \$1 for every \$3 of dividends paid. Any such tax paid is reported as an amount receivable until recovered through the payment to shareholders of dividends out of net investment income. All tax on net taxable realized capital gains is refundable when the gains are distributed to shareholders as capital gains dividends or through redemption of shares at the request of shareholders, while the Company qualifies as a mutual fund corporation. As a result of the capital gains refund mechanism and Part IV tax refunds, the Company recovers any Canadian income taxes paid in respect of its capital gains and taxable Canadian dividends. As a result, the Company does not record any provision for such income taxes.

The Company has estimated accumulated non capital losses for tax purposes of \$ 7,156,143 (November 30, 2015-\$10,848,737) that are available to lower taxable income in future years if required and expire after the scheduled termination date of the Company on December 1, 2020.

The Company currently incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the statement of comprehensive income.

4. Critical Accounting Estimates and Judgments

The preparation of these financial statements include estimates and assumptions by management based on past experiences, present conditions and expectations of future events. Where estimates were made, the reported amounts for assets, liabilities, income and expenses may differ from the amounts that would otherwise be reflected if the ultimate outcome of all uncertainties and future events were known at the time these financial statements were prepared. The Company's most significant estimates involve the measurement of investments and derivatives at fair value

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
 FOR THE SIX MONTH PERIOD ENDED **MAY 31, 2016 AND 2015 (UNAUDITED)**

as described in note 5. The following discusses the most significant accounting judgments that the Company has made in preparing the financial statements:

Classification and measurement of investments and application of the fair value option

In classifying and measuring financial instruments held by the Company, the Manager is required to make significant judgments about whether or not the business of the Company is to invest on a total return basis for the purpose of applying the fair value option for financial assets under IAS 39, Financial Instruments – Recognition and Measurement (IAS 39). The most significant judgments made include the determination that certain financial instruments are held-for-trading, and that the fair value option can be applied to investments in financial assets which are not.

5. Management of Risk of Financial Instruments

The Company classifies fair value measurements within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and lowest priority to unobservable inputs. The three levels of the fair value hierarchy are:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can assess at the measurement date;

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3 - Inputs that are unobservable for the asset or liability.

The following table illustrates the classification of the Company’s financial instruments within the fair value hierarchy as at May 31, 2016 and November 30, 2015:

Financial assets and liabilities at fair value as at May 31, 2016

	Level 1	Level 2	Level 3	Total
Equities	\$280,234,821	-	-	\$280,234,821
Options	(\$363,715)	-	-	(\$363,715)
	<u>\$279,871,106</u>	<u>-</u>	<u>-</u>	<u>\$279,871,106</u>

Financial assets and liabilities at fair value as at November 30, 2015

	Level 1	Level 2	Level 3	Total
Equities	\$275,041,828	-	-	\$275,041,828
Options	(\$454,078)	-	-	(\$454,078)
	<u>\$274,587,750</u>	<u>-</u>	<u>-</u>	<u>\$274,587,750</u>

The Company’s investment activities expose it to a variety of financial risks: market risk (including price risk, interest rate risk and currency risk), credit risk and liquidity risk.

All fair value measurements above are recurring and fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. There were no transfers or reclassifications between levels for the periods ended May 31, 2016 or 2015.

The Company’s net gain (loss) on financial instruments that are held for trading and those designated at FVTPL are as follows:*

FINANCIAL 15 SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED **MAY 31, 2016** AND **2015** (UNAUDITED)

	May 31, 2016	May 31, 2015
Derivatives held for trading	\$640,724	\$502,395
Investments designated at FVTPL	\$187,666	\$1,820,325
Net change in unrealized appreciation (depreciation) on investments	(\$12,600,045)	\$3,572,372
Net change in unrealized appreciation (depreciation) on derivatives	(\$55,199)	\$346,257
Dividends	\$4,778,921	\$4,007,070
	<u>(\$7,047,933)</u>	<u>\$10,248,419</u>

* The Company employs an active and integrated strategy of writing call options on the underlying equity holdings in the portfolio. The requirement to measure and attribute gains separately to either derivatives or the underlying equities may not reflect the relative contributions and benefits from implementing this strategy. As an example, written call options that are subsequently repurchased and/or rolled as part of the active covered call writing program would have had effect of lowering reported gains from derivatives (which would have otherwise occurred had the written call option been exercised or expired), while achieving other gains to the portfolio that would have been measured and attributed to the underlying equity holdings.

Any sensitivity analysis presented below may differ from actual results and the difference could be material.

Market Price Risk

All securities investments present a risk of loss of capital. The 15 core stock holdings were selected because of their long term history of above average market price appreciation and dividend growth. The portfolio companies were selected from the financial services indices of the S&P/TSX 60 index and S&P 100 index and are among the largest financial services companies in North America.

The market price risk is affected by three main components: price risk, interest rate risk and foreign currency movements.

Price risk

The Investment Manager manages market price risk by limiting investment in any one Portfolio company to no more than 10% of the Net Assets of the Company at the time of purchase. In addition, the supplemental covered call writing program generates an additional stream of income to the portfolio which may also help mitigate against market price declines during years in which a particular Portfolio company has a covered call option written against that position. Since the 15 Portfolio companies (10 Canadian and 5 U.S. core holdings) are significant components of their corresponding financial services index, it would be reasonable to expect that the Company's Portfolio will exhibit market price movements that are reflective and generally highly correlated with those particular securities and to a lesser extent with the price movements of the S&P/TSX financial services index and the S&P U.S. financial services index based on the underlying composition of the Portfolio.

A 10% increase/decrease in the portfolio would currently increase/decrease Net Assets of the Company by \$27,987,111 (November 30, 2015-\$27,458,775).

FINANCIAL 15 SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2016 AND 2015 (UNAUDITED)

Interest rate risk

The majority of the Company's financial assets and liabilities are non interest bearing. As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates and considers interest rate risk insignificant (consistent with previous year).

Currency risk

Five of the 15 core financial services companies are U.S. financial services companies that are listed on the New York Stock Exchange and trade in U.S. dollars. As at May 31, 2016, 32.3% (November 30, 2015-40.8%) of the Net Assets are invested in U.S. dollar denominated assets which includes U.S. dollar cash. As a result, the Company's Net Assets will be affected by changes in the U.S. dollar relative to the Canadian dollar which is the functional currency of the Company. The Company has not entered into currency hedging contracts. As a result, if the Canadian dollar appreciated/depreciated by 5% against the U.S. dollar, the Net Assets of the Company would currently decrease/increase by approximately \$4,796,965 (November 30, 2015-\$5,682,944).

Other risks**Credit risk**

Credit risk is defined as the risk that a counterparty will be unable to pay amounts in full when due. All of the Company's transactions are in listed securities and options and are settled and paid for using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment (consistent with previous year). Payment is made on purchase once the securities have been received by the broker. Credit risk of cash is considered low as it is held at a AA-rated Canadian bank.

Liquidity risk

Liquidity risk is the risk that the Company may not be able to settle or meet its obligations on time or at a reasonable price. The Company is exposed to liquidity risk primarily through its monthly and annual retractions of Class A shares and Preferred shares. The Company receives adequate notice for all retraction requests. The Company's Portfolio is invested in highly liquid large capitalization investments that trade on the Toronto Stock Exchange ("TSX") and New York Stock Exchange (consistent with previous year). All Class A shares and Preferred shares outstanding are redeemable on demand but are scheduled to be redeemed upon termination of the Company. All other financial liabilities are payable within three months from the end of the year.

Concentration risk

The Company's 15 core holdings are concentrated in the financial services sector and as such will be exposed to the specific factors that affect this sector (consistent with previous year). An individual Portfolio holding may represent no more than 10% of the Net Asset Value of the Company at the time of purchase.

FINANCIAL 15 SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2016 AND 2015 (UNAUDITED)

The Company's investment portfolio is concentrated in the following segments as at:

	May 31, 2016	November 30, 2015
Canadian Core Common Equities	60.8%	58.3%
Other Canadian Common Equities	1.3%	1.4%
U.S. Core Common Equities	32.1%	39.2%
Canadian Call Options written	-0.1%	-0.1%
U.S. Call Options written	0.0%	-0.1%
Other Assets less Liabilities (excluding Preferred shares)	5.9%	1.3%
	<u>100.0%</u>	<u>100.0%</u>

6. Redeemable Units**Preferred shares**

The Company is authorized to issue an unlimited number of Preferred shares.

<u>Preferred share transactions</u>	May 31, 2016	May 31, 2015
Beginning of period	16,518,732	14,579,732
Issued during the period	3,335,474	1,939,000
Redeemed during the period	<u>(832,774)</u>	<u>-</u>
End of period	19,021,432	16,518,732

Preferred shares were issued at \$10 per share.

Preferred shareholders currently receive dividends in the amount of \$0.04375 (5.25% based on the Preferred share repayment amount). The dividend rate is to be set annually by the Board of Directors subject to a minimum annual rate of 5.25% until 2020. All Preferred shares outstanding on the termination date will be redeemed by the Company on that date. The Preferred shares have been presented as liabilities in the financial statements.

Preferred shares trade under the symbol "FTN.PR.A" on the TSX. Preferred shares trading price on the TSX was \$9.83 as at May 31, 2016 (November 30, 2015-\$10.01). Preferred shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Preferred share and a Class A share (together, a "unit") in the month of October in each year will be entitled to receive an amount equal to the Net Asset Value per unit calculated on the last day of October. Preferred shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a Recirculation Agreement, the Company may, but is not obligated to, require the Recirculation Agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction.

On December 4, 2015, the Company issued 3,335,474 Preferred Shares pursuant to a secondary offering. At the same time, a total of 832,774 Preferred shares were processed for retraction at \$10 per Preferred share in connection with the special retraction privilege that Preferred shareholders had as at November 30, 2015.

The Company issued 1,939,000 Preferred shares pursuant to a secondary offering that was completed on December 16, 2014.

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE SIX MONTH PERIOD ENDED **MAY 31, 2016** AND **2015** (UNAUDITED)

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Preferred shares rank in priority to the Class A shares upon termination of the Company.

Class A shares and Class B shares

Authorized

An unlimited number of Class A shares
1,000 Class B shares

<u>Class A share transactions</u>	May 31, 2016	May 31, 2015
Beginning of period	16,518,732	14,579,732
Issued during the period	<u>2,502,700</u>	<u>1,939,000</u>
End of period	19,021,432	16,518,732

Class A shares were originally issued at \$15 per share. Class A share distributions are currently targeted at \$0.1257 per month. All Class A shares outstanding on the termination date will be redeemed by the Company on that date.

Class A shares trade under the symbol "FTN" on the TSX. Class A shares trading price on the TSX was \$8.45 as at May 31, 2016 (November 30, 2015-\$9.80). Class A shares may be surrendered at any time for retraction at specified retraction amounts, but will be retracted only on the last day of each month. Shareholders who concurrently retract a Class A share and a Preferred share (together, a "unit") in the month of October in each year will be entitled to receive an amount equal to the Net Asset Value per unit calculated on the last day of October. Class A shares retracted in any other month will receive a retraction price based on a discounted specified retraction formula. Under the terms of a Recirculation Agreement, the Company may, but is not obligated to, require the Recirculation Agent to use its best efforts to find purchasers for any Preferred shares or Class A shares tendered for retraction. Gains or losses from the redemption of shares, if any, are recorded in gain (loss) on redemptions on the Statement of Comprehensive Income.

The Preferred shares rank in priority to the Class A shares with respect to the payment of dividends. Upon the termination of the Company, Class A shareholders will receive an amount equal to the Net Asset Value per unit less \$10 (the redemption value of the Preferred shares).

The Company issued 2,502,700 Class A shares at \$9.90 per share pursuant to a secondary offering that was completed on December 4, 2015. Gross proceeds of \$24,776,730 were received from the sale of Class A shares. Agent's fees and filing fees were \$2,389,693 in connection with this offering. Net proceeds from the issue of Class A shares from this offering were \$22,387,037.

The Company issued 1,939,000 Class A shares at \$9.75 per share pursuant to a secondary offering that was completed on December 16, 2014. Gross proceeds of \$18,905,250 were received from the sale of Class A shares. Agent's fees and filing fees were \$1,690,483 in connection with this offering. Net proceeds from the issue of Class A shares from this offering were \$17,214,767.

The holders of Class B shares are not entitled to receive dividends. The Class B shares are retractable at a price of \$1.00 per share. Class B shareholders are entitled to one vote per share. On September 26, 2003, the Company issued 1,000 Class B shares to Quadravest Capital Management Inc., the Company's investment manager, for cash consideration of \$1,000.

7. Expenses

The Company is responsible for all expenses incurred in connection with the operation and administration of the Company, including, but not limited to, ongoing custodian, transfer agent, legal and audit expenses.

FINANCIAL 15 SPLIT CORP.
NOTES TO THE FINANCIAL STATEMENTS
FOR THE SIX MONTH PERIOD ENDED MAY 31, 2016 AND 2015 (UNAUDITED)

Pursuant to the administration agreement, Quadravest is entitled to an administration fee payable monthly in arrears at an annual rate of 0.10% of the Net Asset Value of the Company, which includes the outstanding Preferred shares, calculated as at each month-end valuation date and an amount equal to the service fee payable to dealers on the Class A shares at a rate of 0.50% per annum. No service fee will be paid in any calendar quarter if regular dividends are not paid to holders of Class A shares in respect of each month in such calendar quarter.

Pursuant to the terms of the investment management agreement, Quadravest is entitled to a base management fee payable in arrears at an annual rate equal to 0.65% of the Net Asset Value of the Company, which include the outstanding Preferred shares, calculated as at each month-end valuation date. In addition, Quadravest is entitled to receive a performance fee subject to the achievement of certain pre-established total return thresholds.

Effective the fiscal year ending November 30, 2015, a change in the conditions precedent for the performance fee to be paid was approved by shareholders at the special meeting such that the net asset value per unit must be at least two times the amount of the Preferred share Repayment amount.

The monthly discount to net asset value of 2% applicable to the redemption of Preferred shares and Class A shares is payable to Quadravest. Redemption fees paid for the period ended May 31, 2016 were \$NIL (May 31, 2015-\$NIL).

Total management and administrative fees of \$1,125,064 (May 31, 2015-\$1,078,144), incurred during the period, include the administration fee and base management fee. As at May 31, 2016, \$188,232 (November 30, 2015-\$171,844) was payable to the Manager with respect to the management and administrative fees. No performance fees were paid in 2016 or 2015.

Total brokerage commissions paid during the period by the Company for its Portfolio transactions was \$38,844 (May 31, 2015-\$28,618).

8. Increase (decrease) in net assets attributable to holders of redeemable Class A shares

The increase (decrease) in net assets attributable to holders of redeemable Class A shares for the periods ended May 31, 2016 and 2015 is calculated as follows:

	2016	2015
Increase (decrease) in net assets attributable to holders of redeemable Class A shares	(\$14,124,889)	\$4,005,073
Weighted average units outstanding	19,021,432	16,518,732
Increase (decrease) in net assets attributable to holders per redeemable Class A share	(\$0.74)	\$0.24

9. Distributions

Distributions per share were as follows:

	May 31, 2016	May 31, 2015
Preferred shares	\$0.2625	\$0.2625
Class A shares	\$0.7542	\$0.7542

FINANCIAL 15 SPLIT CORP.**NOTES TO THE FINANCIAL STATEMENTS**FOR THE SIX MONTH PERIOD ENDED MAY 31, 2016 AND 2015 (UNAUDITED)

10. Capital Management

The Company considers its capital to consist of Class A, Class B and Preferred shares.

The Company's objectives in managing its capital are:

- i) to provide holders of Preferred Shares with cumulative preferential monthly cash dividends currently in the amount of 5.25% annually (on the Preferred Share Repayment Amount), to be set by the Board of Directors annually subject to a minimum of 5.25% until 2020 and to pay the holders of the Preferred Shares \$10 per Preferred Share on or about the termination date; and
- ii) to provide holders of Class A shares with regular monthly cash distributions in an amount to be determined by the Board of Directors and to permit holders to participate in all growth in the net asset value of the Company above \$10 per Unit, by paying holders such amounts as remain in the Company after paying \$10 per Preferred Share on or about the termination date.

In order to manage its capital structure, the Company may adjust the amount of dividends paid to shareholders or return capital to shareholders.

11. Accounting Standards, Interpretations and Amendments to Existing Standards Not Yet Effective

The final version of IFRS 9, Financial instruments, was issued by the IASB in July 2014 and will replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 introduces a model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognised in profit or loss. IFRS 9 is effective for annual years beginning on or after January 1, 2018, however it is available for early adoption. In addition, the own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments. The Company is in the process of assessing the impact of IFRS 9 and has not yet determined when it will adopt the new standard.

QUADRAVEST CAPITAL MANAGEMENT INC.

Quadravest Capital Management Inc. was formed in 1997 and is focused on the creation and management of enhanced yield products for retail investors. The investment strategy combines fundamental based equity investing with covered call writing. Guided by four key principles, Quadravest sets attainable investment objectives that allow the team to stay focused on a long-term investment strategy.

The four principles – innovation in financial products, discipline in investment management, solid results for investors, and excellence in client service – form the foundation of Quadravest. Each member of the firm’s tight-knit team is committed to upholding these principles, ensuring a coherence and dedication that is unique to the Company.

Quadravest has raised over \$2.5 billion in initial public offerings.
