

An Important Message to Applicants for Grade 10 at Lillian Osborne School for 2016/17

Dear Students and Parents,

Thank you for your interest in attending Lillian Osborne School for the 2016-2017 school year.

Full for Students Entering Grade 10 Next Year

This year's pre-enrolment process has resulted in unprecedented interest in our school. As of April 13, our school has already received more requests for enrolment than we have space to accommodate. In fact, we are already at our capacity with students who live in the attendance area and who are guaranteed admission based on the sibling rule.

The only students who will be able to attend Grade 10 at Lillian Osborne School for 2016-2017 include:

- students starting Grade 10 who live in the designated attendance area
- students starting Grade 10 who do not live in the attendance area, but who have a sibling who already attends the school and is returning to Lillian Osborne

Pre-enrolment closes at 4 p.m. on Friday, April 15

If Lillian Osborne is your designated high school, or if you are guaranteed admission because of the sibling rule, you don't need to do anything. Students who currently attend Lillian Osborne can stay at the school for 2016-2017, even if it is not their designated school.

If Lillian Osborne is not your designated high school, you will not be eligible to attend the school for Grade 10. You can select [any other high school](#), as long as the school has space. Please note that Harry Ainlay School is experiencing the same enrolment pressures and will only be able to accommodate students who either live in their attendance area, qualify for a District centre program, or have a sibling who will be continuing at the school for the 2016-2017 school year.

To change your preferred high school for 2016-2017, change your selection in SchoolZone, or contact your current school, before 4 p.m. on April 15. If you do not select a different school by 4 p.m. on April 15, your choice of schools will be limited to your designated high school, or any other school that still has space.

More information

We understand this news may be disappointing to students and their families who were hoping to attend Lillian Osborne School. If you have any questions, please contact the school office at 780-391-2450.
