Our packages include everything your pet needs to have cleaner teeth and fresher breath. This also helps to eliminate bacteria laden calculus (tartar) on your pets teeth that not only causes bad breath and periodontal disease, it can also cause heart issues as well as kidney problems. Being philosophical, the mouth is the entrance to the body so keep your pet's mouth clean!

Please note: Discounts will only be honored for dental cleanings performed in JUNE 2015.

As a continuation of insuring patient safety individual technician monitoring of vitals during and after anesthetic procedures are included at no additional charge.

All pets must be current on all required vaccines (Canine and Feline Distemper, Canine Bordetella), current heartworm test and current fecal (intestinal parasite) tested.

Please call us for details. (815-462-7387)

To minimize anesthetic risk and complications, a standard blood chemistry / CBC panel is performed for all pets going under any anesthetic procedure AND is included in the dental package above.

Please call us at 815-462-7387 if you would like to schedule an appointment or need additional information.

If there are any additional procedures or medications not related to the dental cleaning there will be at an additional fee.
