

Cat Napping Suburban Retreat

Best Access for all Abilities

Ebony Centazzo's Cat Napping Suburban Retreat is a welcome new business in Melton and a very worthy winner of this year's Access All Abilities Award. Ebony opened Cat Napping Suburban Retreat just one year ago, overcoming the usual challenges most new businesses face in the setting-up phase. From being the "crazy cat lady", Ebony has succeeded in creating a clean, modern and uniquely different indoor boarding centre, which strives to make all its clients happy – owners and moggies. Walk-ways are wide enough for wheelchairs and children with disabilities regularly visit for an opportunity to cuddle, pat and talk to the cats, which has proven beneficial for both cats and kids.

Cat Napping's Suburban Retreats at Wyndham and Melton have hosted work experience students, giving them a look at the basics of running a business. Some students have had mild learning disabilities and Ebony has watched them grow in confidence and character because of the experience.
