

Are You Concerned About the Future of Your Child's Education?

Tough Decisions...

Selecting a school that will meet the goals and dreams of both parents and students is a very important step in the life of a young child as well as his or her family. A school must have the right fit, "a sense of being at home." A student must feel comfortable as well as challenged; they must excel in their academic work, and there must be opportunities in extracurricular activities for them to commit their time and attention to develop their potential.

St. Wendelin Parish School is a top preschool and elementary school, as well as a Catholic educational institution of faith. One has only to look at our product "our alumni" to be immediately convinced that St. Wendelin Parish School is the place for you and your child.

Take a Tour

We hope you will take the opportunity to learn more about our school and our students. Additionally, we invite you to tour our school. It's easy to set up. Just call (724) 285-4986 and request our school principal, Mrs. JoLynn Clouse, to contact you to set up your personal tour. We look forward to the opportunity to meet you!

Family Values

St. Wendelin School has a loving family atmosphere. Teachers know each student by name, and our students, families, and staff are all part of the St. Wendelin School Family. We understand that parents are the primary educators, and we strive to work with parents to give our children the Christian values we hold dear.

Advanced Technology

We are continually investing in new technology and training for our teachers! In addition to our computer lab, we have Smart Boards, a Smart Response System, and Apple TV's throughout the building. Our Middle School students use iPads routinely across the curriculum.

Small Class Sizes

Our class sizes are less than half that of the public schools. This creates an environment that cultivates each individual's spiritual, intellectual, emotional, social, and physical potential with more one-on-one time for each student. In other words, students learn faster, cover more material, and become better educated because they are taught and cherished as individuals.

Value Priced

We provide Quality, Christian Education priced at an affordable cost with the lowest tuition rates in Butler County. We strive to balance the best education available while keeping our operating costs as low as possible so families can afford the best education for their children. Families with more than one child enjoy reduced costs for additional children. St. Wendelin School also offers many Scholarship Assistance and Grant Programs.

Highly Qualified, Caring Teachers

Our caring, highly qualified professional educators incorporate the legendary values St. Wendelin School has been known for over the last 170 years. In addition to all the State mandated teacher certification requirements, our teachers have additional Religious Education requirements. Also, more than half our staff currently hold Masters Degrees in Education.
