Our iStills 50 and 50 h2o are shipped by airplane to a city nearby and then delivered by truck at your door step. The iStill 50 and 50 h2o are shipped in three parcels that may be delivered separately with some time in between. The iStill 50 VISION and the iStill 50 h2o VISION are shipped in four packages, which will add around € 50 to the transport costs listed above.

iStill 250

The iStill 250 is usually shipped by airplane and then by truck to your door step. On a Euro Pallet crate, measuring 120x80x12 centimetres. Transport costs are around € 1,250. Sometimes a bit more, sometimes a bit less. If transport is more expensive, there will be an additional charge. If transport is cheaper, there will be a refund. Transport time is usually between 10 and 15 work days.

To some destinations (especially in Africa, South America, and Asia), air cargo is not a viable option. In that case we ship by boat to the nearest harbour. Transport costs are between € 750 and € 1,000. The time of transportation can vary from one to two months.
