So What is Taking Our Health Away?

- Why is it that in our current era, with highly developed science and technology, many diseases are still failed to be cured?
- With elevated living standards and enhanced health care giving us a more sensitive conscientiousness, how come there have been more and more chronic diseases?
- Why are people around me, given they were well yesterday, that they suddenly suffered from myocardial infarction or cerebral hemorrhage?
- Why have the cancers uncommon years ago become prevalent nowadays?

Toxins、Toxic deposits are the root of all sickness

Human diseases are not only attributed to the invasion of bacteria and other disease organisms, they can also be attributed to a greater extent to the accumulations of the endogenous toxins which are the paramount reason for chronic intoxication. Therefore, the paramount task of human health is to systematically eliminate the toxins inside the body。

Winner of Nobel Prize

**The history of mankind is the history of all
sickness —— FolkeHenschen**

What are toxins?

“Toxins”——those substances that are excessive and unneeded and are unable to be expelled are all known as toxins, and they include: free radicals, putrefaction, cholesterol, lipid, uric acid, lactic acid., water toxins and extravasated blood etc.

What are toxic deposits?

“toxic deposits”——the substances that fail to be metabolized by humans are deposited inside the body, and, after having accumulated layer by layer for years, the toxins are firmly adhered to the various organ and tissue cells of the internal organs, just like the scales inside a teapot, thus forming the toxic deposits that cannot be easily washed away and metabolized

2

Toxins、 Their effects on human organs

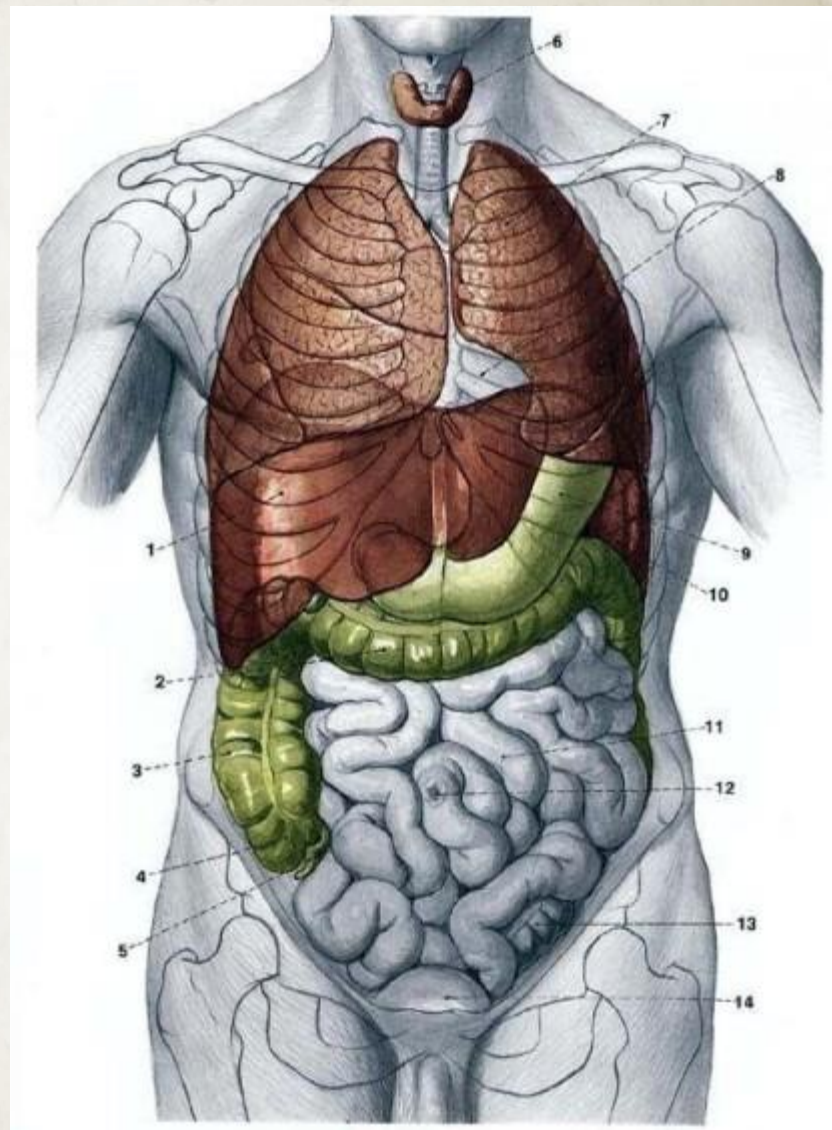

Sickness caused by toxins and toxic deposits

➤ Toxins in the torso and in the four limbs: will cause the waist, the legs, the arms, the neck and even the whole body to ache.

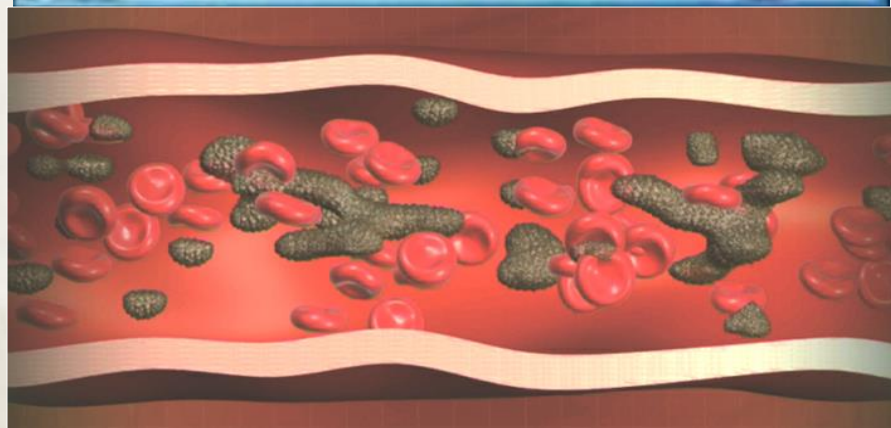

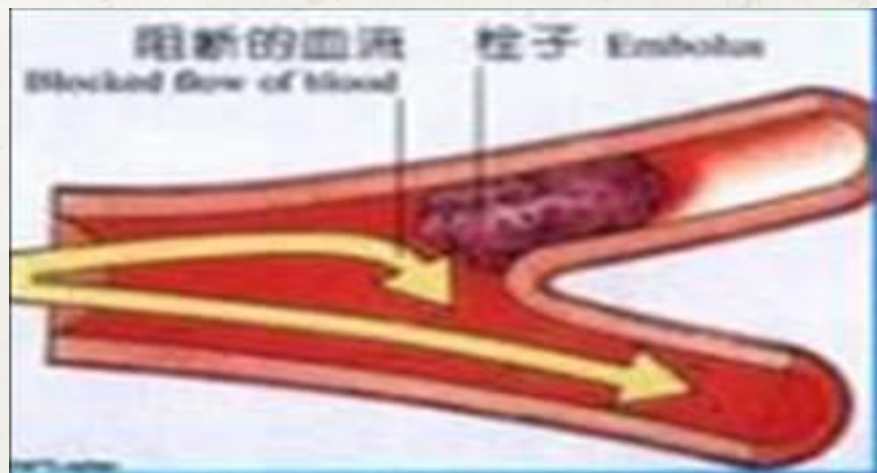

➤ **Toxins in the muscle and skin:** will develop tumors, pimples, tinea, speckles and ulcers.

➤ Toxins in the internal organs will cause pathological changes to occur in the heart, liver, spleen, lungs, kidneys and the other organs of the human body. Also causing endocrine disorders and also balance disorders.

➤ **Toxins in the blood,** will contaminate the blood, causing high cholesterol, high blood pressure, myocardial infarction, cerebral infarction, and other diseases.

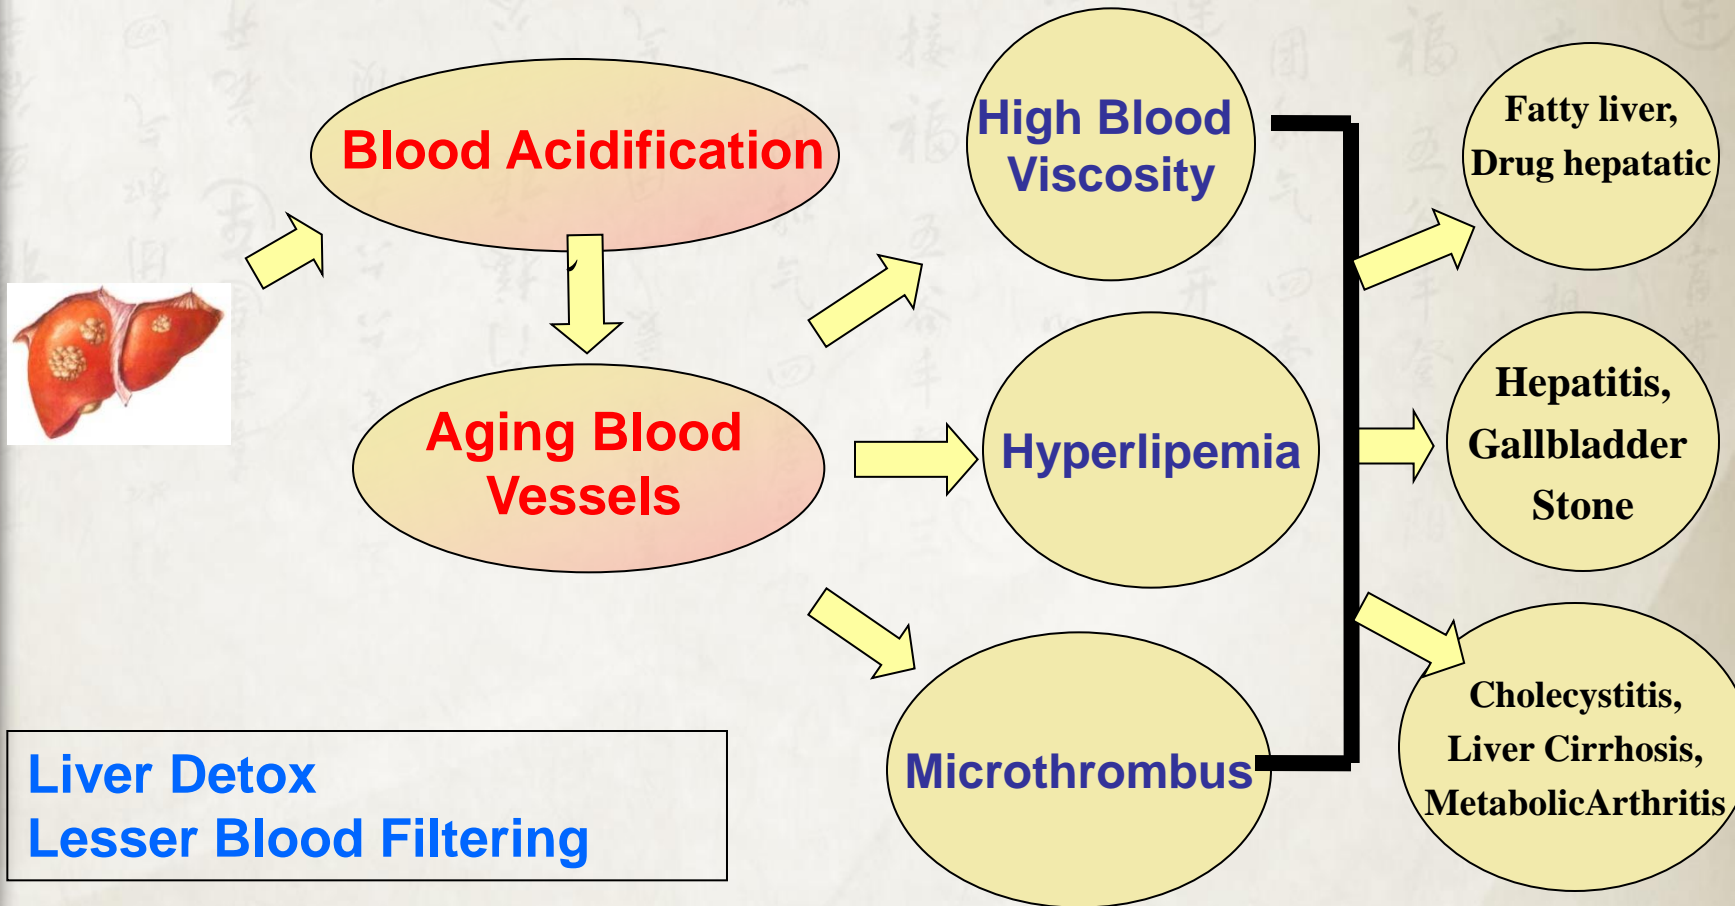

Lipid Toxic Deposits

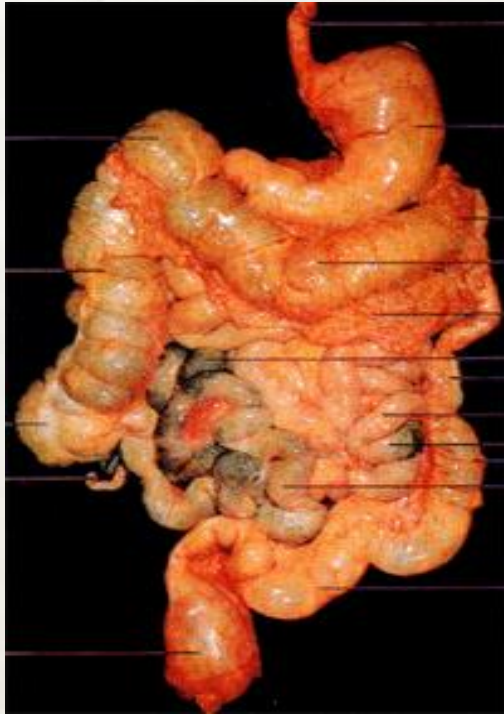

- Arteriosclerosis
- Hyperlipemia
- High Blood Viscosity
- Coronary Heart Disease
- Cerebral Apoplexy
- Myocardial Infarction
- Sudden Death

Lipid Toxic Deposits In The Liver and Gallbladder

Toxic deposits cleared from the liver, gallbladder and bile ducts may weigh from 0.5 to 5 kg

Toxins Accumulated in the Spleen, Stomach and Intestines

- Constipation
- Bad breath
- Hemorrhoids
- Repeated absorption of toxins causing higher gastrointestinal cancer risks

Toxic scales cleared from the intestinal weights from 0.5 - 5kg

Toxins Accumulated in the Lungs

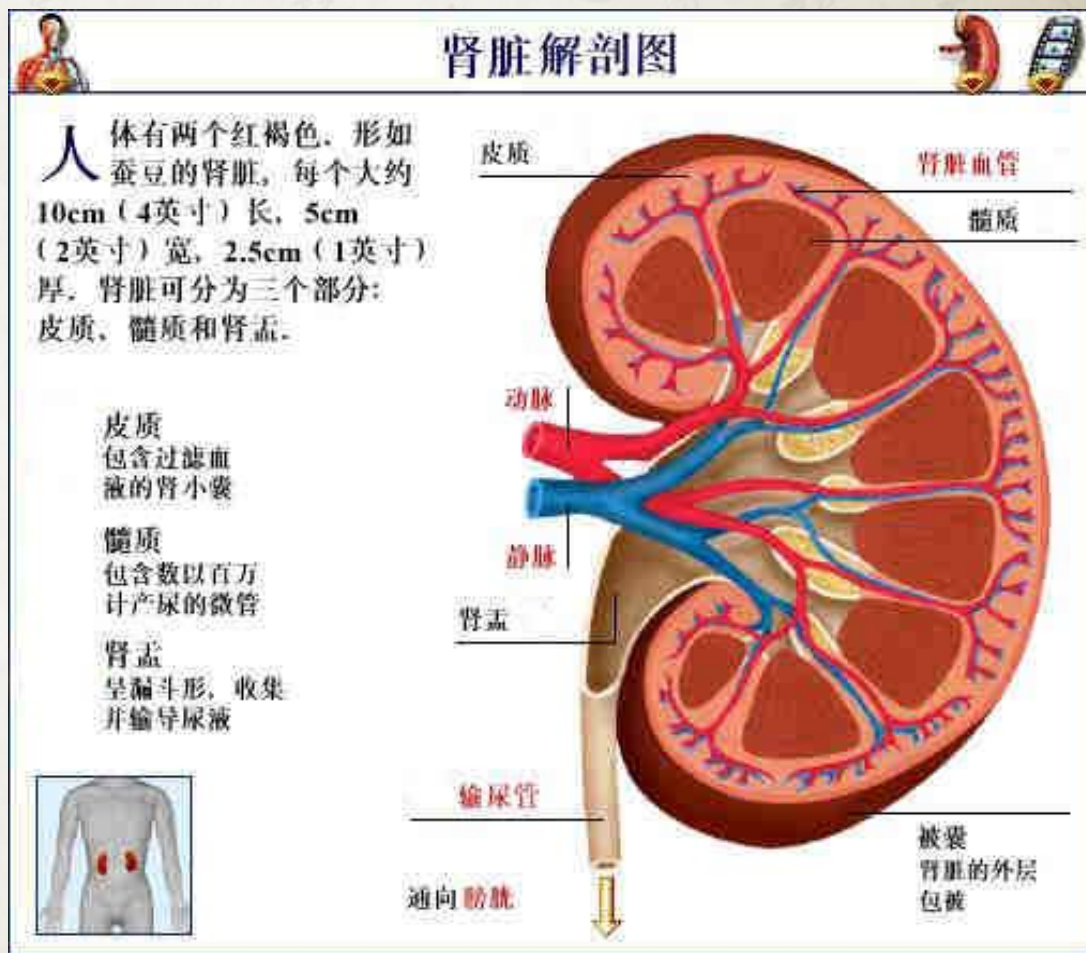

- Rhinitis
- Pharyngitis
- Tracheitis
- Bronchitis
- Interstitial
Pneumonia
- Silicosis

Toxins cleared out of the lungs and respiratory system weights from 0.2-1kg

2008 Ministry of Health's Latest Announcement: Lung Cancer has become the leading cause of death.

Toxic Accumulated in the Kidneys

- Body Frailness
- Night sweat
- Dizziness, ringing in the ears
- Distraction
- Asthma
- Back pain
- Loss of Libido
- Dysuria, urinary urgency
- Constipation

3

Toxics' Origin

•Polluted External Areas

Atmospheric pollution、 Vehicle exhaust, industrial emissions, chemicals, junk food, etc.;

Atmospheric pollution

Air Pollution

Garbage pollution

Electromagnetic radiation pollution

•The endogenous toxic

Toxic disorders from metabolic waste, feces and glucose fat protein metabolism

The Evolution of Knowledge for a Healthy Systematic Detoxification

致明德

- **Systematic Detoxification is the Essence of Chinese Health Wisdom of 5000 years**

Peng Zu – China’s first natural health physician

He was the first one to adopt the method of regular abstention, which can expel the rubbish inside the human bodies, keep the cleanness of the intestines, vital organs and blood and can prevent diseases, preserve health and promote longevity.

The Yellow Emperor - Forerunner of Chinese Civilization

“The Medical Classic of the Yellow Emperor emphasizes that the human structures are mutually associated with the various body parts and they can influence each other, and it summarizes such factors as wind and coldness as the “evil toxins “inside the human body, and it is recorded in details the Eight Methods of TCM.

The Emperor Yan - A Forerunner of Chinese Civilization

With three volumes and a collection of 365 kinds of -drugs,” Sheng Nong's herbal classic” recorded the medicinal efficacies, major indications, usages and ways of administering, thus laying a foundation of the development of herbal detoxication.

Zhang Zhongjing Author of “Febrile Diseases” and “Synopsis of Prescriptions of Golden Chamber”

Recorded in these two brilliant medical books are a total of 269 prescriptions, and it listed 214 herbal medicines, and he was the first medical practitioner to propose the enema detoxification for disease elimination!

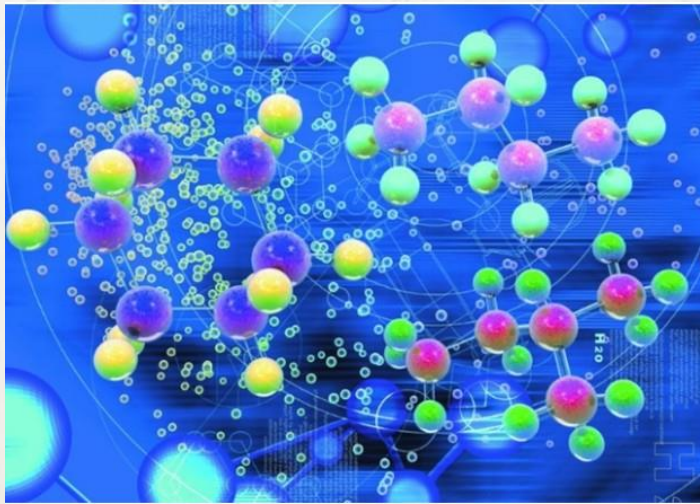

Sun Si Miao, author of “Valuable prescriptions” and “Supplement to Invaluable Prescriptions for Ready Reference”

He was the important summarizer of Chinese health wisdom and collected 5300 medical prescriptions and was the first one to propose the use of compound prescriptions for disease elimination, thus pointing out a developmental direction for the classical prescriptions for deep-layer systematic detoxication.

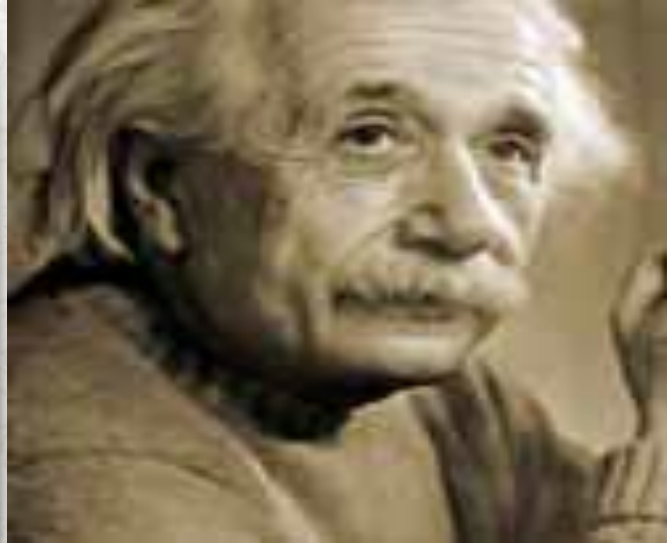

They are all Chinese's Systematic Detoxification messengers of 5000 years of health wisdom essence

•Systematic Detoxification is the Important Research Direction of Modern Technology

Modern medicine is a dynamic equilibrium of the human body environment, along with the development of society, they come to realize that how uric acid, free radicals, excess fat seriously affects health. And how to remove these toxins is currently the direction that modern science and technology workers have been studying!

Einstein (American) winner of Nobel Prize

Proposed that the theory of wave particle duality which holds that: no matter which, materials or energy, they are composed of elementary particles, including electrons, photons, etc., and human cells are also made up of materials and they also feature the wave particle duality .

Erwin Schrodinger (Austrian) winner of Nobel Prize

Adopted thermodynamics, quantum mechanics and chemical theories for the interpretations of the life nature, thus laying a solid scientific foundation for the deep-layer cells detoxication, and also a perfect basis for the fusion of Chinese and western health wisdom!

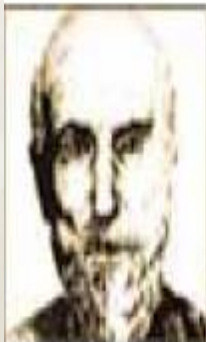

Peter Agre (American) winner of Nobel Prize

Discovered cell membrane water channels, and he also expounded in the ion channels structure and mechanism, thus finding a path for the deep-layer cells detoxication!!

Herbal Series - The Secret of “Systematic Detoxification”

An R&D Project Named “Herbal Series” was thus given birth!

Through a decade of explorations, ZhiMingDe’s researchers finally targeted the classical detoxication formula with the inheritance of the five-thousand-year Chinese health wisdom; meanwhile, using the current most advanced research achievements of biomedicine, they finally succeeded in developing Herbal Series featuring overnight systematic detoxication, systematic permeation, and worry-free health.

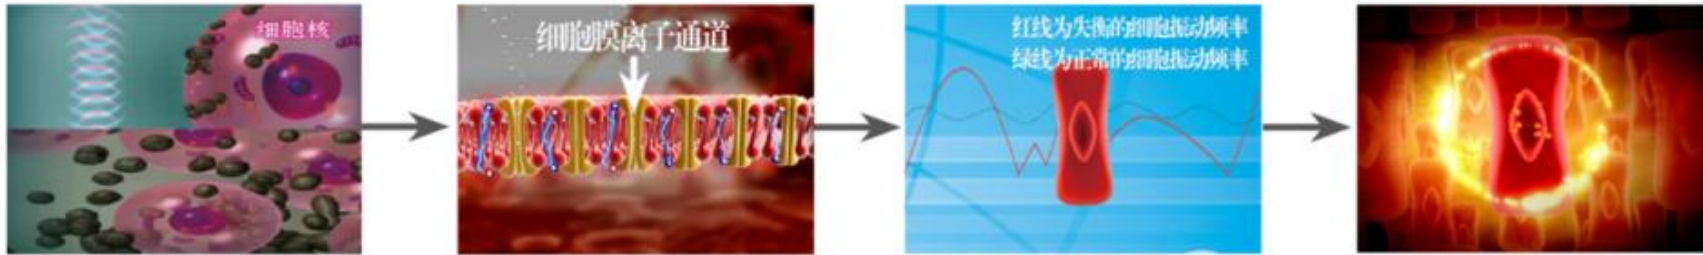

Highly Effective Classical Formula + Modern Top-Notch Technology Achieving Deep-layer systematic detoxication therapy

The formula of Herbal Series strictly follows the Chinese five-thousand-year health wisdom essence, and selected such precious Chinese herbal medicines as American ginseng, polygonum multiflorum, cassia seeds, black sesame, the root of kudzu vine and ginkgo leaf as exquisite combinations, thus forming an all-rounded, highly effective classical formula of deep-layer systematic detoxication; then by fusing the modern top-notch the magnetized energy wave technology, they brought the effects of the herbal essence solution into full play

The Process of Herbal Series

First Step:

The magnetized energy waves are pressed to generate a resonance, and the rubbish toxic deposits on the cell membranes are constantly stripped

Second Step:

The ion channels are gradually permeated, and the herbal solution compositions rapidly enter the cells, thus supplementing the cells energy

Third Step :

The cells' inherent frequencies are gradually restored, and the rubbish toxic deposits on the cells' interior and exterior membranes are purified.

Fourth Step:

The magnetized waves continue to function (for 120 days) within the cells with restored activities, thus enhancing the human health in an all-rounded way.

The effective contents in the Herbal Series can directly strip toxic deposits on the cellular surfaces, permeate the cells' deep-layer detoxication channels, so that the delicate herbal detoxication essence can enter the cells, swiftly eliminate the deep-layer toxic deposits inside the cells, thus making the cells clean internally and externally, and meanwhile the cells are restored, and vitality enhanced

5

Herbal Series' Four Unique Characteristics

Unmatched Feature #1: Overnight Systematic Detoxification, Full-body Easing

It takes only 24-hour to eliminate systematic toxic deposits, purify blood, permeate internal organs, blood pressure, blood glucose, cholesterol, blood viscosity, blood uric acid, alanine transaminase, ALT, etc., and the abnormal indicators are improved in an all-round way, body weight reduced, and the taker has systematic easing, have a ruddy complexion, enhanced appetite and sound sleep.

Unmatched Feature #2: Full-Body Permeation and Balance, and Immunity Elevation

Deep-layer systematic detoxication therapy follows the health wisdom “Without toxin clearance, the body will not be permeated and the diseases not eradicated” for the human body, and by deep-layer permeating of the detoxication channels of various cells of the human body, it achieves the systematic permeation, and coordination of the organs and tissues, with the systematic health status obviously improved!

Unmatched Feature #3:

On the same day, detoxication is visible, and able to feel, and the medical tests are contrastable.

- **Feel It:** the taker will feel a systematic easing, greatly enhanced appetite, and elevated sleeping quality; the sub-health symptoms were improved or disappeared.
- **Visible:** on the same day, it can be seen that the colorful toxins of various shapes inside the body were expelled out of the body.
- **Detectable:** hospital tests can discover that such abnormal indicators as triglycerides, cholesterol, blood viscosity, blood uric acid were obviously improved.

Unmatched Feature #4: Annually, it takes only 2 - 6 times, in a whole year for worry-free health

It takes only one administration, so it is more effective than drug administration; it takes only one time, so it is safer than surgical operations; no matter what your body was like before, and no matter what environment you are in, it can bestow you with worry-free health, and efficacies can have sustained functioning for 120 days, therefore, annually it takes only 2—6 times, and health longevity are no longer tough issues!

6

Herbal Series: Three Innovative Breakthroughs

Breakthrough No. 1 : Deep-Layer Detoxication

No matter oriental Gua Sha Treatment or western medicines, they can only have a single detoxication, and what they usually solve are only superficial toxins such as those of the lymph nodes and intestinal tract. ZMD - Herbal Series, however, has made a breakthrough in this limitation, and for the first time, it has realized the systematic detoxication of deep-layer cells, directly targets the disease sources.

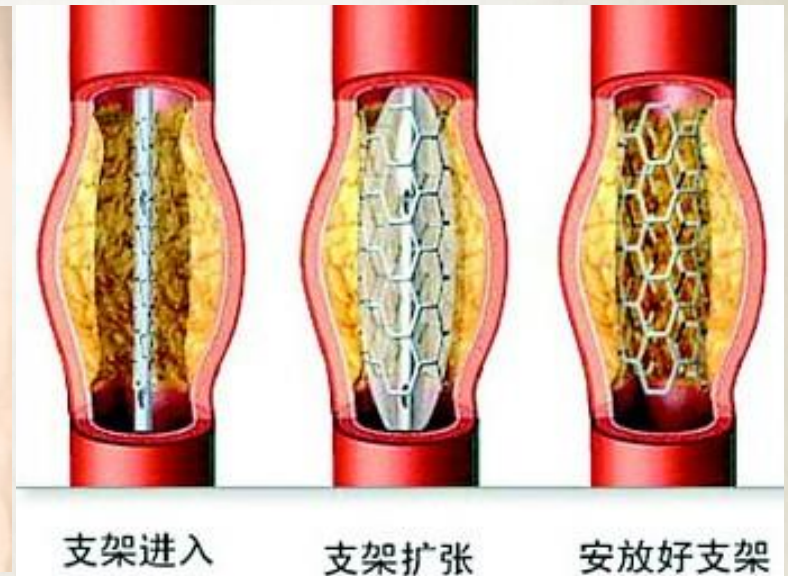

Breakthrough No. 2: Detoxication in an All-rounded Way

The conventional detoxication approaches all belong to only reactive, not preventive regulation, and they have never realize the detoxications of all the systematic tissues and organs. ZMD - Herbal Series has made a breakthrough in this limitation, thus, for the first time, realizing systematic detoxication and achieving systematic permeation and worry-free health.

Breakthrough No. 3: Does Not Harm the Body

No matter whether it is enema or surgical operation, not only do they fail to have the detoxication of deep-layer cells, they will also damage the body's inherent balance, or even will directly damage health cells. While ZMD - Herbal Series strips the toxins off the cells, it can even enhance the cells' activities and metabolic capacities, and it is a complete maintenance of the systematic cells, and the nutrition absorption and utility rates are greatly elevated.

Herbal Series: Toxic Correspondence Table

Lung Toxic - White

Corresponds to:

Lung deficiency、
Tracheitis、 Pharyngitis、
Rhinitis、 Psoriasis、
etc.

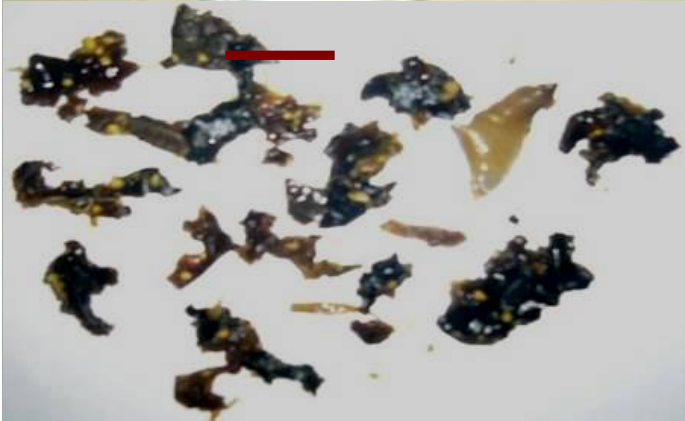

Corresponds to:

Gallbladder Stone、 Liver
Cirrhosis、 Hepatitis、 High
cholesterol、 Fatty Liver、
Alcoholic liver、 Drug Hepatitis、
Chloasma、 Hyperplasia、
Ovarian cysts、 Uterine fibroids、
etc.

Liver Toxic - Green

Kidney Toxic - Black

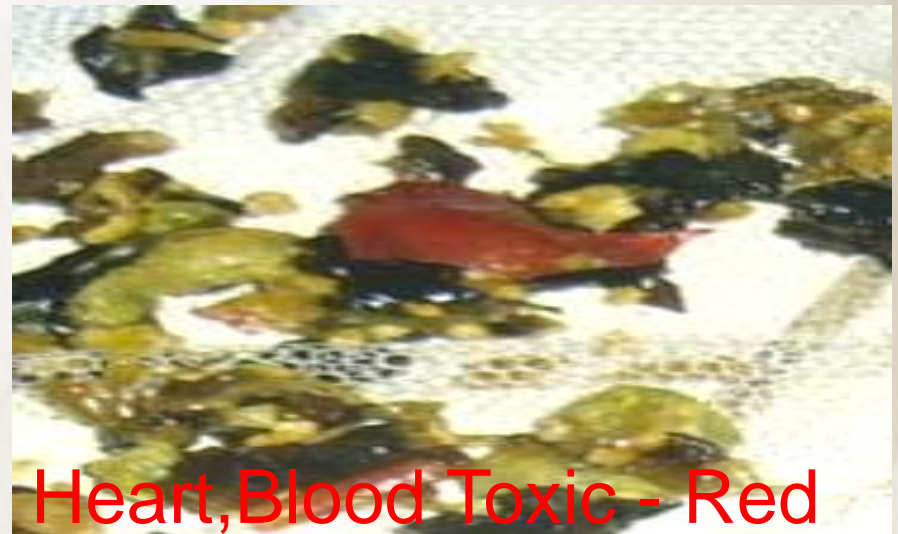

Corresponds to:

Kidney Deficiency、Kidney Stones、Gout、Prostate、Uremia、Low Sex-Drive、 etc.

Corresponds to:

Coronary heart disease、Angina、Hypertension、Stroke、Atherosclerosis、 etc.

Heart, Blood Toxic - Red

Spleen Toxic - Yellow

Corresponds to:

Indigestion、 Gastritis、 Gastric Ulcer、
Enteritis、 Constipation、 etc.

Gentle Reminder:

- One week prior to the oral administration, the administrations of all medicines are prohibited, and meat dishes, alcoholic drinks, tea, coffee and any other drinks are prohibited. On the same day, the diet should be mainly vegetables, and after 2:00 p.m., any food as well as the breakfast of the next morning is prohibited.

The following 11 categories of people urgently need systematic detoxication

1. Those who often work overtime , go on business trips, burning midnight oil, thus leading to disorders of the metabolic system, systematic toxins accumulation
2. Long-term alcoholic drinking, and smoking harms the liver and damages the lungs
3. Long-term sedentary work in offices facing the PCs and having little exercise
4. Long-term use of cosmetics, thus leading to lead and mercury depositions
5. Long-term medicine administration, which harms the liver and kidney
6. Long-term excessive intake of high-fat, high-calorie food, and consequently the toxins inside the body will be generated, thus causing imbalanced bodily disorders and resulting in obesity
7. Long-term oral administration of contraceptives, thus leading to bodily disorders
8. Excessive eating of spicy food or excessive eating which burdens the gastrointestinal tract, leading to the accumulation of toxins.
9. Long-term constipation, the toxic accumulation of pollutants affect intestinal tract and blood
10. Big emotional fluctuations and excessive living and work pressure, thus leading to neurological disorders, and toxin accumulations.
11. Those with bad breath and skin itchiness

The Use Phrase Stages of Herbal Series

Begining Stage:

1. On the first day of intake, lipid particles, uric acid crystals, internal organs and lipid blood toxic will be cleansed.
2. After cleansing toxins from organs, nutrition channels are opened for better absorption of nutritions and medication.
3. Lightening the burden of internal organs, effectively preventing occurrence of various complications and added burden of various organs, thus enhancing the healing power of the body.

Middle Stage:

1. Organs' self-repairing capacity gradually restored, fully enhancing healing power.
2. Enhanced immunity system, preventing major diseases

Future Stage:

Prolonging life, anti-aging, toxic deposite-free, organs becoming more healthy. Because the organs determines the life of a person, thus the person's overall life will also be extended.

Domestic and Foreign Experts Highly Recognize Herbal Series

Andre-Dietrich

Medical Expert

Herbal Series realized systematic detoxication in its true sense; not only can it eliminate the toxins in the skin and the intestinal tract, it can even expel the toxins of the five organs, blood, and cells. So it is one thorough cleansing of the body in an all-rounded way, leaving no dead angles for the toxic deposits

Kenneth Rockwood

Scientist

“Without detoxication, the body will be obstructed, and diseases not eliminated”. Because toxins are the sources of diseases, if the systematic toxins are not eliminated, the body’s normal metabolic channels will not be able to operate normally, and the systematic diseases will not be effectively cured. It can be said that this is a deeply hidden grand wisdom of life health.

Ted Gray Doctor

My experience is: overnight detoxication, worry-free health. Swiftness: it takes only 24-hour to take effect; Accuracy: directly targets the trash hidden in and outside the human deep-layers. Potency: it completely eliminates systematic diseases caused by toxic deposits, and conducts a true cleaning in an all-rounded way. Herbal Series provides modern health with a wise option, and brings to various groups of people who urgently need detoxication with the simplest and comfortable health approach.

Xiao Jun Yong Professor of Legal Studies

It's so miraculous! It takes only one night to expel the colorful toxic deposits of various shapes within the body. On the same day, one can feel the easiness and smoothness after the expulsion of the toxic deposits. It takes only one day for the whole body's problems to be solved.

Dr. Yuan Ai Rong

Medical Expert

Herbal Series represents the highest level of modern systematic detoxication. It needs no surgical operation treatment, and neither does it call for long-term perseverance, thus realizing the visibility and hands-on experience

Sun Xin Sheng

Vice-chairperson of China Quality Association for Pharmaceuticals(CQAP, MD, former official of US FDA

Herbal Series, by adopting the world's advanced science and technology, unified international standards, and with a vigorous scientific attitude, successfully solved such tough problems as the changes of the disease spectrum, environmental pollution as well as the toxic and sides effects of chemical drugs, the bad effects of drug resistance that are faced by people in recent years

Lu Sheng-Dong

**Academic leader of the National 863 Plan,
Chinese Academy of Medical Sciences, China
Union medical University**

Professor of molecular biology

Herbal Series represents the current advanced level of our nation's herbal preparations, and its excellent product quality is a true example of the combination of our nation's traditional herbal medicines and modern high-tech technologies, and it successfully blended the traditional Chinese herbal medicines with high-tech and it is bound to carry forward the Chinese health wisdom!

Hu Wei Qin

Chinese renowned health care expert, and used to conduct long-term health preservation and health care work for a number of leaders of the Central CPC Committee

Herbal Series, through the deep-layer permeation of the detoxication channels of human cells, is a natural therapy that restores the body's own detoxication capacities, and enhances the body's integral coordination and balance, so it is bound to stir a green detoxication storm.

Wang Shou Dong
Standing member and Deputy Chairperson of
the Professional Committee of World TCM
Joint Committee
Dean of US International TCM Research
Institute

Herbal Series realized the branding international operations of Chinese traditional herbal preparations, and entitles more and more groups of people who aspire for health to the unmatched functions of oriental herbal products, thus featuring a milestone significance.

Richard Alan Cohen M.D.
MD of the Medical School of Johns Hopkins
University, and the current Medicine Chief of the
Medical School of Boston University

Diseases of the cardiovascular system are those faced by the whole globe, No matter western medicine or oriental medicine, they have been both constantly exploring them, and constant exchanges and blending of Chinese and western technologies can open up a new path for the treatments of the cardiovascular and cerebrovascular.

Jin Cheng Yuan

**Distinguished professor of
Korean Seoul National
University, First Class
Research Fellow of Korean
Anti-aging Research Institute,
Honorary Chairperson of
the Association of Korean
Oriental Medicine**

This is a remarkable pioneering work, and the emergence of Herbal Series is bound to curb the prevalence of chronic diseases, frequently occurring diseases, and sudden diseases, thus making it possible for those people who aspire to have permeated bodies, enhance disease resistance, evade cancers and prevent major diseases.
