COURSE DESCRIPTION

Vortex UAS is offering 3 days of face-to-face classroom instruction designed to help our students pass the Part 107 Certification Test on the first try.

Take advantage of:

- The expertise and knowledge-base provided by our team of professional aviators and training experts, both of whom are Certified Flight Instructors.
- 3 days of in-person training.
- Our guarantee that you will pass the Part 107 Certification Test on your first attempt, *or we pay for your second attempt!*

Course includes:

- Working knowledge of 14 CFR Part 107, including Certificated Remote Pilot application procedures.
- Complete overview of the National Airspace System, as it applies to UAS operations.
- Working knowledge of aviation weather reports, forecasts, and weather related factors affecting the safe operation of UAS.
- A complete explanation of additional knowledge required to pass the FAA Knowledge Test for the Remote Pilot Certificate.

For more information on, or to register for, this course and others, please visit us at www.unmannedpilottraining.com.
