**It's easy to get excited
about concepts that
start with “e-”...**

**But what about the
access to online
information...**

(digital and media literacy)

**But when “online” is a just
business opportunity...**

(Extra “fuel” for global capitalism)

**But when you get
information overloaded...**

(Diversity and quantity)

**But when “online
information” isn’t more
than propaganda...**

(Amplified manipulation)

**But when you think that
you can change the world
with just one **click...****

(Clickactivism)

Is there an “E-Nuno”?
