TECHNICAL SPECIFICATIONS

SUNBRELLA® PERFORMANCE FABRIC

Sunbrella fabrics are 100% Sunbrella acrylic. Designed for superior outdoor performance, Sunbrella fabric is mildew resistant, UV resistant and provides water repellency with no loss of breathability. Sunbrella fabric's color penetrates all the way to the core, ensuring years of vibrant color and performance. One of the best ways to keep Sunbrella fabrics looking good and to delay deep or vigorous cleaning is to properly maintain the fabrics. This can be accomplished by simply brushing off dirt before it becomes embedded in the fabrics, wiping up spills as soon as they occur or spot cleaning soon after stains occur.

ALUMINUM

Villa Cabana furniture frames use 1.5 mm aluminum tubing for excellent durability. Aluminum is known for its superior corrosion resistance.

PVC WICKER

Made from 100% PVC. Strong and durable, yet lightweight, PVC one of the most suitable choices for outdoor use.

FOAM

A high density 2lbs./cubic foot foam is used for all cushions. A higher density foam improves the overall quality of the cushion.

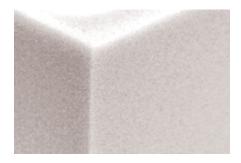

TEMPERED GLASS

Tabletops are made of 5 mm Tempered Glass that resists extreme changes in temperature for added durability and safety.

VillaCabana CUSTOM FABRIC

Below are suggested yardage requirements for re-upholstering Villa Cabana pieces. Please note these yardages are based on solid fabrics, if large scale patterns are being used more fabric may be required than states below.
