DISCOVER THE KEYS TO SUCCESSFUL LIVESTOCK AND LAND MANAGEMENT

Dates: January 26-29,
2016

Location: Yogo Inn,
Lewistown, MT

Your introduction to Holistic Management

The key to creating a successful livestock ranch is three fold: You must be skilled and knowledgeable at managing cattle in a profitable manner; You must be able to create a healthy landscape; and You must empower a dynamic ranch team. This hands-on seminar will improve your skills in all three facets by introducing you to Holistic Management®, a planning process designed to support ranchers and farmers in their everyday decision-making.

- ◆ Improve Profitability
- ◆ Improve the Health of Your Land
- ◆ Improve the Health of Your Animals
- ◆ Improve Your Quality of Life

Learn How To:

- Develop a business plan based on the trinity of management
- Manage and control cattle with cost effective fencing and water improvements
- Match cattle to their environment and capitalize on their natural attributes
- Reduce (stop) the overgrazing
- Manage any landscape, large or small
- Plan for a profit in any cattle market
- Market your cattle or any other product or service you might be providing
- Empower a management team that is creative and flexible
- Create wildlife habitat and abundant feed through planned grazing
- Use Holistic Management® to make financially, ecologically, and socially sound decisions

What You Will Gain:

- Increased profitability
- Increased productivity from the land so you can sustain higher stocking rates of cattle and other wildlife
- Decreased weeds, poisonous plants, brush, erosion and other land management problems
- Greater returns from investments in land and cattle
- Decrease the need for supplementation while simultaneously maintaining healthier herds
- Protect the land base, which is the biggest investment for most operations
- A management team that is on the same page when decisions are made.

About the Instructor

Roland Kroos will be teaching this seminar. Roland has over 30 years experience in teaching Holistic Management® and helping ranchers practice these management concepts. Roland received his training and worked alongside Allan Savory, the founder of Holistic Management®.

Roland considers himself a practitioner and facilitator of Holistic Management® working with individuals and groups alike. His enthusiasm and deep thinking will challenge your paradigms, yet help you develop confidence in holistic decision-making. He has hands on experience in ranch/farm management and will share real-life examples of Holistic Management in action.

TESTIMONIALS

Roland is amazing, knowledgeable, an extroverted speaker. I'm impressed as to how he maintains his passion for the subject and interest in the students.

Dr. Marshall Kohr

Attending the Holistic Management course in 1984, catapulted me into management. Holistic Management provided me with the skills to treat the ranch as a business and we continue to be successful today. In 1998, I bought Eater Cattle Company from my parents. As a result of attending this course, I found myself moving from hired hand to owner.

Wayne Eater
Eater Cattle Co.

This management program has fit well with our buffalo herd. The frequency of moving the herd to decrease 'the second bite' seems to dovetail with their instincts to travel, and the amount of natural feed we have for winter grazing has increased dramatically. Attending seminar, one of the best investments we have made at the ranch.

I feel we live an area with some of the best and most powerful grass in the country. The Cattle Buyers appreciate the cattle that come from this area. We have a grass resource that provides us with great opportunities. Roland has provided us with the knowledge necessary to keep this resource healthy and how we can improve our profitability.
